Heels on shoes are not high but are not as low as they have been. Some of the heels are thick but others are a trifle slimmer.

Many of the winter coats have fur collars but a great many of these are fashioned so that the fur collar can be slipped off when one desires a plain coat.

DID YOU EVER...

call an oil dealer for kerosene or fuel oil and notice how embarrassed he seemed when it became necessary for him or one of his representatives to tell you how sorry they were, but on account of the condition of your account they could make no further deliveries?

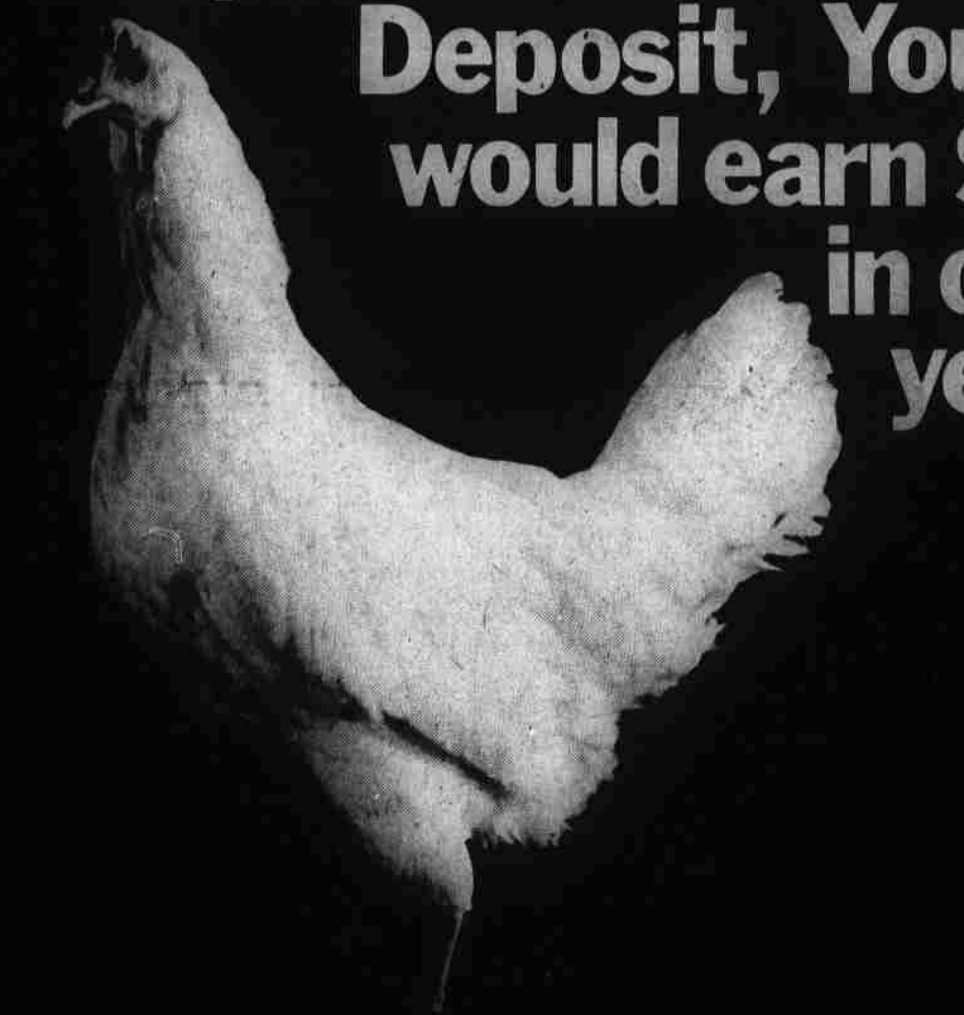

This is a bad condition because it gets terribly uncomfortable when it's cold, not to have the proper heat, so as in the past we urge you to pay your bills now so that these things will not happen.

We will hold our regular Credit Meeting on Sept. 16th and at that time will exchange credit information, not only with the local dealers, but out-of-town operators.

We need your cooperation in order to give you the proper service and again we ask you give this matter your immediate attention.

Thanking you in advance for your consideration, we are,
Very truly yours,
