Window Treatment Can Work Wonders For A Room

Did you know that beautiful window treatments can work wonders for a room? That is true, states Mrs. M. B. Taylor, home Economics Extension Agent. They can set the decorating mood. They may become a part of the background or the center of interest; dramatize a lovely view or screen off a poor one; complement pleasing architectural features or conceal lack of them. In addition, they often play an important functional role in sound absorption and insulation.

The windows of your home provide a transition between outside and inside living. They may control fresh air, light and privacy. The type of windows and the way the room is used influence the type of window treatments you select. There should be a feeling of harmony or unity for all of the windows as viewed from the outside of the home. On the inside there should be a pleasing feeling of coordination as you move from room to room. Deciding on window treatments becomes much easier if you will check your window types, consider different basic types of window treatments and possible ways to add individuality, decide on the right hardware for each window and carefully select the appropriate fabrics and trims. If you would like to see how beautiful window treatments can work wonders for a room attend one of the Extension Homemakers meeting listed below for the month of September, 1969:

N. C. Dept. of Agriculture Gives Away 100 Million Lbs. of Food

The North Carolina Department of Agriculture distributed nearly 100 million pounds of U.S. Department of Agriculture foods during fiscal year ending June 30, 1969 to improve the diets of school children, needy families and needy persons in charitable institutions.

A report to Agriculture Commissioner James A. Graham from Jay P. Davis, Director of NCDA's Food Distribution Division showed that food donations for needy families during this period amounted to 55 million pounds and had a value of \$18.4 million. This compares with 32 million pounds at a value of \$8.4 million for the same period a year earlier.

"More people were recipients under this family food program during the year as a result of federal-state-local efforts to reach more needy persons and the implementation of a supplemental food program to reach mothers, infants and small children who are vulnerable to nutritional deficiencies," the report stated.

"Other USDA food donations during the school year included nearly 43 million pounds to schools at a wholesale value of \$13.3 million, and 2.3 million pounds to charitable institutions with a value of \$3.6 million.

"Although USDA acquires some of the food through its price-support activities, most of the foods are purchased specifically by USDA's Consumer and Marketing Service to help needy persons and school children enjoy a substantial and varied diet. The food is processed, packaged and shipped to the states at no

cost for use in their school lunch, needy family and other food-aid programs.

Actual distribution of these foods to individual schools, institutions and distribution warehouses within the states handled by the Food Distribution Division of the North Carolina Department of Agriculture.

Any donated foods in these distribution channels may be diverted for immediate use to aid victims of natural disasters.

Scottish Rite Club Has Ladies' Night

Friday night, Sept. 5, 1969, Perquimans County Scottish Rite Club staged their annual Ladies' Night cook-out party at the Winslow-Blanchard Motor Co., place with a total attendance of forty-seven members and their ladies present; and just as the cooking was about to get under-way our two distinguished guests from New Bern walked in and wanted to know if they could get something to eat. "Certainly Sirs" we replied, "Just come on in and made yourselves at home." And immediately brother Bob Pugh, secretary of the Scottish Rite Bodies, and brother Nelson Banks, recorder of Sudan Temple, became two of us and made themselves right at home among us. And while Carson Spivey Sr. and George Buck were cutting up the onions and D. J. White was frying them down, the charcoal grill was being prepared for cooking those steaks to the desired taste and flavor; then James White arrived to assist with the cooking of the steaks; and in the interim our guests from New Bern were passing around among the crowd and putting in a plug for the Scottish Rite and the Shrine wherever possible. When all were ready to eat, President Spivey called the party to order and asked secretary George Buck to give the invocation; then those steaks, hamburger patties, onions, french fries, and ice tea rapidly disappeared. Brother C. C. Winslow, President of the Winslow-Blanchard Motor Co.,

gave a welcome talk, followed by President Spivey recognizing the different Masonic groups present and their ladies, and the prospective candidates present. Brother Bob Pugh, Secretary of the New Bern Scottish Rite Bodies, was presented and made an excellent talk on Scottish Rite Masonry and its benefits; then Brother Nelson Banks, Recorder of Sudan Temple, was presented and spoke on the work and benefits of the Shrine. Both speeches were very enlightening and had an educational value for all present. The Club more than enjoyed and appreciated the presence of the New Bern guests and hope to have them join us again before too long.
