The Chinese Egg Roll

The egg roll, a thin covering of crisp unraised dough wrapped around various meat, seafood and vegetable mixtures, originated as a special snack served with tea when relatives and friends came to visit after the Chinese New Year. The first egg rolls were tiny, bite-size treats. Later, in Canton, larger egg rolls were served.

Today, fully prepared egg rolls are found in the frozen food section of your market. Available in both the original bite-size version and in the larger Cantonese size, these delicious egg rolls go from freezer to table in just 10 minutes. The tiny egg rolls from Chun King are packaged in a choice of four fillings... a lobster-and-meat, shrimp, chicken, and shrimp-and-meat. The larger Chun King egg rolls are filled with a shrimp and vegetable mixture.

Premium Dinners

Oriental cooking has come a long way since the first Chinese homemaker prepared an egg roll for her guests thousands of years ago. Chances are she'd be amazed and impressed at the ease with which egg rolls can be served today.

Egg rolls are even part of new complete 5-course, frozen Oriental dinners sold in markets across the nation. These dinners include two bite-size egg rolls, a main course, rice, a sweet and sour meatball or shrimp course, and an apple or cherry dessert roll. Try one of these dinners soon!
