Mrs. Nancy Elliott Edison has a special place in Vepco's heart, and with very good reason. In 1970 we'll be providing our one-millionth customer with convenient electric power - at a cost that has dropped from the early residential customer's 25¢ to an average 2¢ a kilowatt hour. At our Sixty nuclear power station, two 800,000 kilowatt units are being ready for operation in 1971 and 1972. Since Mrs. Edison's son Tom started all this with his first electric power plant way back in 1882, his birthday makes February a very important month for all of us at Vepco, and his mother a very special lady. So happy birthday, Mr. Edison. And thanks, Mom.
