

## Milk Makes the Difference With Risky and Friskey

Risky and Friskey convinced approximately 2300 boys and girls in the Perquimans County Schools that milk makes the difference, stated today by Mrs. M. B. Taylor, Home Economics Extension Agent. As a result, it was reported that 100% of the children in the classroom where Risky and Friskey spent 6 weeks drink milk, 98% of the children surveyed prefer milk over soft drink, 97% of the children include some milk in their diet daily.

As you probably know that Risky and Friskey are white rats from Wilmington, Mass. They visited the schools to prove the value of milk in the diet. They were involved in a Rat Feeding Experiment. Risky was on a bread and a soft drink diet, and Friskey was on a bread and milk diet. The experiment started February 17, and terminated April 10, 1970. Risky and Friskey were not only to prove that weight and growth are not only signs of good or poor nutrition. You are able to see other signs or disposition, the skin, the eyes, the breathing, the facial expression, red blood, general feeling of well being, says Mrs. Taylor. They recent to food the same as humans beings.

The first six weeks, they were guest to the Perquimans County Union 5th Grade A under the supervision, Miss Doris Jennings, and at the King Street Elementary School the 6th Grade, Mrs. W. E. Beamon, Instructor.

In the beginning of the experiment Friskey weighed 70 grams at Perquimans Union School and Risky weighed 78 grams. Friskey at the end of 6 weeks weight 310 grams and Risky 116 grams. At King Street Elementary School, both rats weighed 70 grams each. At the end of the experiment Friskey weight 210 grams, Risky weight 90 grams. Friskey grew 5 1/2 inches longer than Risky.

It is crystal clear that Friskey, the milk drinker, is bigger and healthy. He has clean, smooth, glossing fur, and a smooth tail; has pink eyes, nose, ears, feet, and tail. Friskey has clean and tidy habits. He is quick, with alert movements, and good muscle control. Friskey is easily handled and in good nature. He has firm nails.

Risky, who is on the soft drink diet, shows signs of a poorly nourished rat. Risky's coat is shaggy, and thin. The tail is rough and dry. The ears, feet, and tail are scaly. The eyes are not clean. He has a pinched look in the face. This rat is restless, irritable, and cross. Risky is having breathing difficulty. The nails are soft.

The are going on tours in the county to meet as many people as possible. They are interested in meeting organized groups and special interest meetings. After spending 6 weeks in King Street and Perquimans Union School, they spent one week at Central Grammar School, and a day at Hertford Grammar School and Perquimans County High School. After the tour, they will return to the Science Department in the

HE'S THE TOPS - He didn't want to return to coaching but he did and now Red Holzman, coach of the New York Knicks of the NBA, has been named "Coach of the Year". Holzman, 49, replaced Dick McGuire in December of 1967 at the time he was happy to be a scout.

## Second Fraud Under Medicare

The second sentencing in the nation for fraud under the Medicare Program occurred April 1 in the U.S. District Court for the district of South Carolina in Florence, according to Robert W. Alford, Social Security Branch Manager in Elizabeth City, N.C. Dr. Roy P. Cunningham, of Florence, South Carolina physician, had previously been committed to the custody of the Attorney General as a result of court action on December 22, 1969. At that time, Dr. Cunningham had entered a plea of nolo contendere (no contest) for submitting requests for payment of medical services allegedly rendered to Medicare beneficiaries, when actually such services had not been rendered.

In the final action on April 1, said Mr. Alford, Dr. Cunningham was again brought before the court and received a one year prison sentence on each of two counts, the sentences to run consecutively. Mr. Alford stated that on an additional six counts, the Florence physician was placed on probation for five years, to commence upon his release from prison. Twenty-five counts were dismissed.

Mr. Alford further stated that in the Social Security Atlanta region, which includes eight Southeastern states, 13 cases of potential Medicare fraud have been referred to the Department of Justice with recommendations for prosecution, and that criminal action is being taken against an additional six physicians.

## Participates In Craftsmen Fair

Eight faculty members and 18 students from the School of Art at East Carolina University will participate in the first annual Carolina Designer Craftsmen Fair to be held in the Educational Building on the State Fair Grounds in Raleigh, April 17 and 18.

To the accompaniment of live folk music, demonstrations of pottery, weaving, macrame and jewelry making will be on view. Faculty members from ECU who will have work on display and participating will be Charles Chamberlain, Janet Fischer, Sara Edmiston, Dorothy Satterfield, John Satterfield, Rodger Wood, Paul Minnis and Gwen Jones.

Participating in the Crafts Fair from Perquimans County is Mike Johnson, son of Mr. and Mrs. John N. Winslow of Rt. 3, Hertford.

Owner: "Why?"  
Mechanic: "Well, if you ever stop, the cops will think it's an accident."

## Stepped-Up Demand Boosts Soybean Sales

American soybean producers are selling record quantities of soybeans both at home and abroad this year, according to H. O. Carter, State Executive Director for the Agricultural Stabilization and Conservation Service.

It is estimated that soybean utilization will increase from 945 million bushels used in 1969 to 1,136 million bushels for this year. This increase in market demand for soybeans represents the production from about 7 million acres.

"In view of the excess production capacity we have in this country, this growth in soybean demand is welcome news to soybean producers and taxpayers," Carter commented.

During the period 1966 through 1968 and part of 1969, soybean supplies tended to increase as a result of increased competition from lower-priced imports of fish meal, sunflower oil and other competitive protein substitutes. However, in recent months demand for soybeans has increased substantially as a result of more competitive pricing, a drop-off in supplies of other high-protein materials, and continued growth in world demand for protein feeds.

"As a result of the increased demand at higher prices, soybean producers who placed their crop under loan last fall have been redeeming them prior to the loan maturity date and moving them into the open market," Carter pointed out.

In past years, with less favorable markets, farms have tended to leave their beans under loan until the loan maturity date. Reversal of this trend will result in a substantial saving to the Government and therefore to taxpayers.

"Increased exports have been, and will continue to be, the key to large growth markets for soybeans," Mr. Carter pointed out.

"Soybeans supply more than four pounds of meal for each pound of oil, while most other vegetable oil products supply about a pound of oil for each pound of meal. The demand for meal is increasing faster than the demand for oil, and this in turn creates a demand for soybeans both in the U. S. and abroad," he explained.

With soybeans priced more competitively with other high-protein products, overall market demand has increased faster than processing facilities could profitably be developed.

However, with a somewhat improved operating margin, more crushing plants are being built or planned. "This will increase the demand for farmers' beans and eventually provide a greater volume of soybean oil

and meal at more competitive prices," Carter emphasized.

Recent action which resulted in a 50 per cent reduction in the soybean levy into Japan, and continued efforts by USDA to discourage an import tax on soybean oil and meal moving into the European economic community, has helped exports.

This action, combined with a continued desire by consumers to upgrade their diets, will assist in developing a market for additional supplies of beans.

In anticipation of this improved market demand, soybean growers have reported intentions to plant over 43 million acres in 1970, an increase of almost one million acres above 1969.

"This increase should boost bean growers' incomes around \$100 million next year," Carter estimated.

## PEROT ON PRISONERS

Atlanta, Ga.--Texas billionaire H. Ross Perot says he is sure the U.S. government is doing everything possible to obtain the release of Americans held prisoner in North Vietnam. He is convinced the issue of prisoner release has high priority with President Nixon. The only way to obtain the release of the men, Perot said, is through public opinion.

## Douglas Umphlett Student Teaching At Wilson

Paul Douglas Umphlett, son of Mrs. Charlie J. Umphlett who resides at 801 Grubb St., Hertford, is now doing student teaching at Ralph L. Fike Senior High School, Wilson, Wilson County.

Mr. Umphlett is taking part during the Spring semester in the student teaching program of Atlantic Christian College, Wilson, N. C. In this program students devote approximately nine weeks to full-time student teaching in the field for which they have been preparing. Mr. Umphlett is teaching Economics and Sociology under the supervision of Mr. Gilbert Ferrell.

As a part of the program, the Atlantic Christian College student teacher engages in a period of observation of classes, attendance at professional meetings, and participation in other school activities prior to and during the student teaching assignment, always under the supervision of the supervising teacher and the principal. The local school's participation with Atlantic Christian's student teaching program is a valuable asset to the education program of North Carolina.

Paul D. Umphlett graduated from Perquimans County High School in 1966.

## G. WALLACE BRIGHT

HERTFORD -- George Wallace Bright, 64, of Route 2 died Tuesday at 5:25 p.m. in Chowan Hospital, Edenton, after an illness of seven months.

A native of Perquimans County, he was a son of George W. and Mrs. Addie Davis Bright and the husband of Mrs. Margaret Sawyer Bright.

He was a logger. He attended Oak Grove Methodist Church. Besides his widow, surviving are two sisters, Mrs. W. W. White Sr. of Hertford and Mrs. Eula Garrett of Elizabeth City.

A funeral service will be held Thursday at 2 p.m. in Swindell Funeral Home by the Rev. W. R. Pinner of Oak Grove United Methodist Church. Burial will be in Old Hollywood Cemetery, Elizabeth City.

## NO JFK PORTRAIT

Washington--The face of John F. Kennedy can be seen on a half-dollar or a savings bond, but not in the mansion where he lived for nearly three years. The White House Historical Association wants to remedy the situation. It's awaiting assent from Kennedy's widow. Kennedy sat for only two portraits during his lifetime and the institutions owning those aren't about to relinquish them.
