Ostomates Of Northeastern North Carolina

Thousands of ostomates throughout the U.S., Canada and across the seas have been helped and received help through Ostomy Clubs. The Central Carolina Ostomy Club of Raleigh and the Tidewater Ostomy Club of Norfolk recognizes the need of the ostomate in northeastern North Carolina to become associated with an ostomy club if they do desire. The object of these clubs is as quoted in the By Laws:

"The Rehabilitation of persons who have an ostomy (colostomy, ileal bladder or ileostomy); to call on such persons, either prior to or subsequent to release from the hospital, at the request of or with permission of the attending physician. To make available to the patient, approved methods of irrigation of a colostomy, care of ileal bladder and ileostomy, assistance in selecting and/or obtaining equipment for ostomates and rendering any service required."

Both the Raleigh club and Norfolk area club are endorsed by the American Cancer Society and it is hoped that if enough interest is shown a similar club can be formed in northeastern North Carolina which would also have the endorsement of the American Cancer Society. Plans are underway for a club to be located in Hertford. Physicians and surgeons have been asked to cooperate in passing out cards to any past, present or future ostomate patients. They may have now or have had if they think that becoming associated with such a club would be of benefit to them or to other ostomates. The ostomate of long years standing with their experience and knowledge would be of the greatest help to new ostomates or in establishing a new club. All doctors, nurses and interested persons are most welcome at these meetings.

For further information: To anyone in this area: Margaret T. Lane, Member, Hertford; Tidewater Ostomy Club; Central Carolina Ostomy Club.

FARM SEWER GRANTS
The Nixon Administration has agreed to release \$18-million for more Farmers Home Administration grants to help small rural communities build water and sewer systems. According to Secretary of Agriculture Clifford M. Hardin, the full amount will be made available for grants during the year ending June 30.

Why I Am Proud Of America

The following thoughts of students from Mrs. Grace Coston's 5th and 6th grades at Hertford Grammar School on "Why I Am Proud of America" merit publishing.

WHY I AM PROUD OF AMERICA

Why am I proud of America? I'm proud of her because she helps the unfortunate people. Since she has many factories and raw materials, she uses some of them for other countries. If you counted up the money we spent for others, you would see that some is owed. We helped some countries get independence. One was Cuba. I wonder if it was the right thing to do? We try to make peace. We built a building and founded an organization called the United Nations. That is where the countries talk over their problems. Right now, we are fighting with South Vietnam to keep Communism from taking over that country. Ye, countries of the world, you owe a lot to the land of the free and the home of the brave. And, for me, thank you America for being helpful.

Why I Am Proud To Live In America

I am proud to be an American because we have so many freedoms. Freedom of Worship, Freedom of the Press, Freedom from Want, Freedom of Speech and Freedom from Fear. Freedom is precious. We don't have to worry about someone coming to take us to jail in the middle of the night. We have the most beautiful scenery in the world. We have beautiful mountains and valleys. We have enough food that nobody starves. I like to see the American flag because it reminds me of all the battles fought to help make America free. America has anything you could ask for.

Why I Am Proud To Live In America

The reason why I am proud of America is we have many freedoms. That is why the pioneers came over here, because of these freedoms. Our freedoms are: Freedom of Worship, Freedom of Speech, Freedom of the Press, Freedom from Want, Freedom from Fear. We appreciate our freedoms.

Have you ever heard the song, "America the Beautiful?" Its words are true.
Our flag is red, white and blue. This flag is beautiful. There is one thing America is trying to get and that is "Peace."
Our scenery is beautiful. We have many things to look at and admire.

There is one thing that America isn't, and that is being backward. Many places are backward, but we are not. As we live in America, we need to love

Why I Am Proud To Live In America

I am proud of America because it is a country that helps other countries in time of war and peace. America is also a free country. We have freedom of worship and freedom from want. We have freedom of speech and freedom of the press. America has helped other countries to progress and helped them to win their independence. America has sent great men to talk peace with communist countries.

Why I Am Proud To Live In America

I am proud of America because of its many freedoms, and because of our beautiful flag, and the stirring poem Francis Scott Key wrote about our country, which is now our national anthem. I am also proud of our many impressive sceneries and of our many good schools and colleges spread throughout our country. I am proud of the many people like our soldiers that try mortally to defend our country from Communism and for our scientists and inventors, who constantly strive to improve our country. America is truly great! All my life I shall do my best to keep it that way.

Why I Am Proud To Live In America

I am proud to live in America when I think about our forefathers fighting to protect our country so we could have freedom. When I look at the flag, I think of our country's beautiful oceans, waterfalls, streams, rivers, lakes, forests and land. I am proud to live in America because it is not a stingy nation. When another country needs money and needs help, we give it to them. When a country is at war, we will help them. There are many other reasons that I am proud to be an American that can't be expressed, but I think this is enough to tell you that America is a great country.

Thanks To Mrs. M. B. Taylor June Is Dairy Month

By Mrs. Judy Stewart
Home Economics Instructor
Perquimans County High School

I feel that through this experiment the girls were able to get an idea of the methods used and the types of research being carried out in the area of nutrition in addition to the idea of the value of milk in the diet.

Most of the girls seemed to take a great interest in this experiment. They were anxious to help with Risky and Frisky and interested in the results of the experiment. Some, however, were sympathetic toward the rats feeling that it was wrong to experiment with them.

The feelings of a few of the girls concerning the uncleanliness of the rats seemed to interfere with their learning. Perhaps some other laboratory animal such as a guinea pig

would have caused less of negative reaction from them.

It seems that this experiment could have had greater success as a learning experience if introduced at a different time. The students in the freshman classes who expressed the greatest interest were in the midst of clothing construction and thus were unable to spend as much time as would have been possible had they been studying nutrition exclusively.

Thank you for bringing this learning experience to our Home Economics classes.

NEEDLEPOINT HOBBY

Fullerton, Pa.—George Sacher, 76, keeps busy during his retirement years doing needlepoint. He has been doing this for twenty years and many of his canvases decorate the walls in his home. He also makes purses and other objects.

June is Dairy Month, stated today by Mrs. M. B. Taylor, Home Economics Extension Agent. Are you meeting your requirement of milk? Now is a good time to establish a milk drinking habit, states Mrs. Taylor. Everyone should follow the Food Guide everyday. The milk group states that children under 9 two to three cups; pregnant women—three or more; nursing mothers, four or more. However cheese can be used for part of the milk.

Are you guilty of the following reasons for not drinking milk? Don't think it is important; Think it is too expensive; Don't like it; Don't have it.

Riskey and Friskey proved to you why you should drink milk. So don't be Risky and run into bad health. Try to establish good eating habits by meeting your daily requirement of milk.

What this country really needs is a good 5% savings account.

According to leading economists, the average American family of four with an annual income of \$10,000 should be saving at least 5% of this income each and every year. 5% of \$10,000 is \$500 which is a lot of money. And when you're saving a lot of money, you should be earning a good interest rate on it. We at Peoples Bank pay a good interest rate on savings. We pay 5% guaranteed interest on our Peoples Premium Passbook Savings. Our Premium Passbook requires an initial deposit of \$500 (how ironic, on \$10,000 income you should be saving \$500 anyway) and interest is computed on a daily basis. So save a nickel of every dollar you earn, and we'll give you a nickel for every dollar you can save in a Peoples Premium Passbook.
