Public Urged To Attend Restoration Association Meeting

Monday night, Feb. 15 could be one of the most important days in the history of Perquimans County. A meeting will get underway in the courthouse at 7:30 and the end result could be the equivalent of a new industry in our area.

The meeting is being sponsored by the county's Restoration Association to determine the interest of everyone in Perquimans in regard to the restoring of old homes and other buildings -- a project that could mean thousands of visitors per year. It can work! It has worked successfully in Chowan County and is just starting to work in Bertie County where a five year endeavor to restore the Hope House has recently been completed and already brought many visitors to their area.

There were some in Bertie who felt it couldn't work -- some who thought it a waste of time. Those people have now been shown they were wrong. If we have some with similar ideas in our county, we hope they'll think twice. We will not be just as successful -- but more so. We have scores of buildings here that the state's Department of Archives and History consider to be of tremendous value and interest -- economically and culturally.

Our first project concerns the Newbold-White House and the Theophilus White House -- a joint project that state history officials regard as the most important in North Carolina.

Social Security Beneficiaries Must File Earnings

April 15th is the date most people think of as the deadline for filing income tax returns. April 15th is also a very important date for social security beneficiaries.

Everyone who received monthly social security benefits in 1970 are reminded that an annual report of earnings must be filed with the Social Security Administration on or before April 15, 1971, if their earnings were more than \$1680 during the calendar year of 1970. Earnings may be from wages or self-employment or a combination of both. Persons who fail to file their annual report on or before April 15th could find that they have been overpaid. Failure to file the annual report on time could also result in a penalty of one additional month's benefits.

Mrs. Underwood Gives Home Decorating Ideas

Home decorating is a major responsibility of the housewife. While shared to some extent with her husband it is her "job", states Mrs. Paige Underwood, Home Economics Extension Agent.

If the job is done well she gets the credit. If it is done badly, she gets the blame. Thus it involves considerable thought, to give Mrs. Housewife the confidence that what she buys is right.

Home decorating is a continuous process that goes on throughout the year without regard to seasonal consideration. All consumers are constantly on the outlook for new ideas, additions and changes. Not all rooms in the house receive the same degree of decorating attention. The rooms that the woman is most concerned with are the rooms that are on display to friends and neighbors. These rooms include the living room, dining room and master bedroom. The woman is willing to spend more time in the decoration of these rooms as well as being more willing to spend greater sums of money.

Draperies are a basic and important decorating item requiring decisions as to color, pattern, fabric and measurements. The selection of colors and patterns are the dominant influence in the consumers purchase of draperies for both public and private rooms. Care and ease of maintenance is the second concern since draperies are washed or cleaned only once every one or two years.

Consumers are vague in their description of made-to-measure draperies, but are more familiar with ready made draperies and

custom-made draperies. Each has advantages as listed below: Ready-made draperies are available immediately, they can be returned if not right, the entire drapery can be seen, usually ready made are easy-care, and investment is small which means economical replacement. Custom-made draperies give a more luxurious look, made to fit exactly, better "hang" to them, wider selection of colors and patterns, and professional help is available. The definite disadvantage of custom-made draperies are: higher price tag and it takes longer for delivery. The made-to-measure drapery has some advantages as custom-made with additional advantages of lower cost and shorter delivery period.

Drapery purchases are motivated by reading decorating magazines, shopping in department stores and seeing friends homes. Many women feel that there are too many fabrics and patterns available which make the final decision an extremely difficult one. They also express difficulty in visualizing how draperies would look from seeing a small swatch and they are often unsure of what style is right for their window.

If you have questions concerning drapery selection, how to measure, rod placement, or hanging draperies, contact Mrs. Underwood at the County Office Building.

Merchants Plan Feb. 18-22 As Washington's Birthday Sale

When a newspaper once reported the death of Mark Twain, the noted author reported that the premature announcement of his demise was greatly exaggerated. This may be the case with George Washington. If you're downtown the morning of Feb. 19 there's a good chance you'll see him parading around.

And he'll have something of value for you. Gift certificates that will mean an even greater savings on the already low-priced merchandise on display during the Washington's Birthday Sale. In other words -- you'll pay even less if George W.

sees you and makes you the recipient of one of his gift certificates.

Your Perquimans County Chamber of Commerce reminds you that the Washington Birthday Sale is the biggest sale event of the year in the county and it will be held from Thursday, Feb. 18 to Monday, Feb. 22 (Sunday excluded, of course).

That gives you plenty of time to shop -- to look around -- and to save on items you need.

As always, parking in downtown Hertford is for free and as always, with the Washington Birthday sale, you're invited to carefully peruse the advertisements in the Feb. 18 edition of the Perquimans Weekly.

Then visit Chamber-member stores and save. And -- on Friday morning, don't forget to look for George Washington and see if you can convince Honest George that you're deserving of some of those gift certificates he's giving away.

Also, the Future Homemakers of American of Perquimans County High School will hold a bake sale Saturday, February 20th on the Courthouse green from 10:00 a.m. to 12:00 noon. They will expect to have some of Martha Washington's home made cherry pies and other homemade goodies.
