Mrs. Taylor To Attend White House Conference

To Perquimans County Citizens: Within a few days I will be leaving the county to attend the President's White House Conference on Aging in Washington D.C. May I say to you, this is an Open Conference and an action Conference. It is an open conference at which all problems of aging are opened for consideration. This conference will be governed by one "word" and one "concept," namely Action. Congress called for recommendations and plans for action that will achieve the objectives clearly set forth in the law authorizing the conference. This law calls for a report on plans for action not later than 120 days after the Conference concludes. It also directs that 90 days later the Secretary of Health, Education, and Welfare should submit both to the President and to Congress his recommendations for administrative and legislative action. We know that many hopes and aspirations at the Conference in Washington will be expressed in the area of employment. The Nations' Older people want to be a part of our mainstream of living. If their hopes and aspirations are to be realized 'action programs' must deal effectively with the prejudices now reflected in employment policies that, in effect, slam the door of opportunity in their faces. May I solicit your prayers that Christ will be the good part of the President's White House Conference on Aging, States Mrs. M.B. Taylor, Home Economics Extension Agent, Perquimans County.

Fruit Tree Pooling Project Initiated

A Pooling of Order Project for different varieties of fruit and nut trees is being attempted at the Agents Office Building. The idea is to get all of the request for fruit and nut trees together. These orders will be made into one large order. In this way, the nursery will allow a price reduction. The purpose is to save both money and time while getting for less money the quality and approved trees recommended for this area. According to W.C. Strowd, Agricultural Extension Agent, any one desiring to establish a family orchard, increase the size of his present orchard, or replace trees in the home orchard are asked to contact the agents about this project.

Bill Wilson Speaks To Hertford BPW Club

Mrs. Bettie Swindell introduced Bill Wilson of Greenville, N.C. as guest speaker at the Hertford BPW Club when it met on Thursday Night, Nov. 18th. at the REA Building.

Mr. Wilson, who is Program Director for the Eastern Tuberculosis and Respiratory Disease Association, showed a film on the detection and treatment of tuberculosis. In his talk he stated that tuberculosis was third on the list of communicable diseases in North Carolina. Although it is quite easy to cure by medication, there has been only a slight decrease in the number of cases in the state in the past ten years. He urged adults to have a TB skin test and chest X-ray yearly.

The Eastern T B and RD

Association is a non-profit health organization to prevent, detect, and control TB and respiratory diseases such as emphysema, bronchitis, etc. Their work is carried on through educational programs in schools, with civic clubs, Health Departments, and physicians. The sale of Christmas seals finances this work.

After the program, a business session was presided over by Mrs. Addie White, president. She announces that the Christmas Party would be held at Boswell's Restaurant on Dec. 16th. Mrs. Swindell reported that plans were underway to have the float ready for the parade Dec. 3rd.

After adjournment, refreshments were served by Mrs. White and Mrs. Swindell.

Super Dollar Moving To New Location

The Super Dollar Store will be closed Sunday, November 28 through December 1, for their move just five doors down from the present location in the Harris Shopping Center on Grubb Street. The new store will have two times the space including a cafeteria serving breakfast, lunch, dinner and snacks with seating capacity of 65.

The Super Dollar Store will carry a wide assortment of clothing for the entire family, name brand items for the home and will also feature a new department of fabrics, all first quality at discount prices every day. The discount health and beauty aid "Medi-Center" will also be enlarged to bring to Hertford a much larger selection all at Discount prices.

In July 1967 the present Super Dollar Store was opened and was the sixteenth retail outlet of the chain. Since that time this North Carolina Corporation, with headquarters in Raleigh, has opened stores in the Carolinas and Virginia to sixty-one in number. The uniqueness of Super Dollars Stores is its program of taking discount retailing to smaller towns. Its capital is 2 millions dollars and it is reported to be the fastest growing chain of discount stores in America. Other Super Dollars stores in this area are located in

Edenton, Windsor, Williamston and Scotland Neck.

Mrs. Velma Cobb is excited about the new and beautiful store and invites all of her friends and customers to attend the grand opening, Thursday, December 2, 9 a.m. Mr. Harold Lamm, Manager-store Development, is in charge of the store opening.

Rubella Clinic To Begin November 29

Beginning November 29th a five-day immunization drive in Perquimans, Chowan, Camden and Pasquotank schools against red measles and german measles (rubella) will be conducted throughout the four-county health district.

A pre-school clinic will be held in each county December 5 from 12:30 to 3:30 p.m.

School children up to 12 years old will have an opportunity to receive the combined vaccine that protects against both kinds of measles. Vaccine will be administered free through services of the district health office and the State Board of Health.

More than 11,000 children in the health district are eligible for the combined vaccine said District Health Director Howard Campbell.

Needles will not be used in the immunization. Instead, public health service nurses will use pressure guns that administer the vaccine painlessly.

Consent forms for immunization of the children have been passed out in the schools. "Parents are reminded to return those forms as soon as possible. Only children returning forms marked yes and signed by parents will be eligible for the vaccine" said Campbell.

If your child has not already had both a Red measles shot and a German measles shot, then he should get the new vaccine.

The one-dose vaccine works whether your child needs just a Red measles shot, or just a German measles shot, or both shots. If you are not sure that he has had both kinds of shots, then your child needs this vaccine.

February Designated Restoration Month

The Perquimans County Restoration Association has designated February as Restoration Month, and that subject will be discussed Monday at 7:30 at the REA Building, U.S. 17 north.

The money raised in February will be used for the restoration work now being done to the Newbold-White House, oldest house in the state. The aim is to make the building a prime tourist attraction-an idea designed to be of import to this area historically and economically.

Some money for the project has already been raised, but more is needed and Joe Nowell, association president, said he hopes a number of money-raising ideas will be brought up at the Monday night meeting.

The project is one of the most important ever undertaken in Perquimans County. The help of everyone is needed.

Local Cancer Crusade Goal Reached

The Perquimans County Chapter of the American Cancer Society, is proud to report the Crusade goal has been reached and passed. The Crusade Co-Chairmen Mrs. Warner Madre, for the rural area, and Miss Mary Helene Newby, for the town area, have worked hard to make the Crusade a success.

The rural area contributed \$844.95 and the town area contributed \$706.57. They extend thanks to the workers and the interested people who made contributions. It is hoped that many will continue to use the Memorial Program to further support the activities of the Chapter.

Reaching our goal will enable us to reach more patients and be able to give aid within the budget limits.

The quarterly meeting of the Chapter will be held Monday, November 29th. at 8 p.m. at the REA Building. It is hoped the attendance will be good and that many Crusade Workers will attend so that they can be properly thanked for their work.

Christmas Ideas On Exhibit

Christmas Ideas will be on exhibit by Extension Homemakers' Club, Wednesday, Dec. 1 at 7:30 P.M. - 9:30 P.M. at the County Office Building. Christmas Themes will be featured along with Food and miscellaneous Christmas Gifts and Decorations. There is no charge to attend. The exhibit will be open Thursday and Friday from 9:00 A.M. to 4:00 P.M. The public is invited to attend, states Mrs. Paige Underwood, Home Economics Extension Agent.

Sen. B. Everett Jordan To Speak At AADA Banquet

The Albemarle Area Development Association will celebrate its 10th Anniversary December 3 with a banquet beginning at 7 o'clock at Nor-

theastern High School in Elizabeth City.

AADA president Charles Harrell stated that he is proud to feature Sen. B. Everett Jordan as guest speaker.

Jordan has served in the United States Senate since 1958. Born in Ramseur, N.C. in 1896. Jordan has a long distinguished record of service to his country and his native state. Married since 1924 and the father of three, he served with the Tank Corps during World War I before entering an industrial and then a political career.

The senator is chairman of the Senate Rules Committee and a member of the committees on Agriculture and Forestry and Public Works.

An added feature of this event will be a 10 year history of the association.

Singing entertainment will be provided by Bill Thorn's Barber Shop Quartet and catering by Pasquotank Home Demonstration Clubs.

Spray Apple And Peach Trees Now

The season of the year has come when many fruit tree growers are seeking information about when to spray, what chemicals to use, and how to use them to control certain diseases and insects affecting fruit trees. Generally, there is no such spray program as a once over treatment. Chemicals used for controlling diseases do not necessarily control all of the insects. Some of the chemicals used to control diseases and insects in the early stages may not be too effective during the later stages of growth. The occurrence and severity of attacks vary from one area to another and from one season to another. For the most economical and effective control, each grower should first understand his disease and insect problems in order that proper control practices can be applied at the right time.

An Orchid To Mrs. M. B. Taylor

The Extension Homemakers of Perquimans County offer special congratulations to our County Home Economics Extension Agent, Mrs. M.B. Taylor. As co-workers we want to commend ourselves for having an agent to receive the honor of being a guest of the President of the United States to attend the President's White House Conference on Aging in Washington, D.C., November 28, December 2, 1971. We are calling on the Perquimans County Citizens to join us in prayer that God will send special blessings for a successful trip for Mrs. Taylor. We are looking forward to her return.
