In order to participate in the 1972 feed grain set-aside program, an eligible producer must make the following choices:

**Qualifying participation:** In all cases, a producer must set aside a cropland acreage of average productivity equal to 25 per cent of his total feed grain base. He will receive a payment rate of 80 cents a bushel for corn, 75 cents for grain sorghum, and 64 cents for barley on the established yield of the set-aside acres.

In addition, he may choose one of the following two alternatives:

(1) He may set aside an additional acreage up to 10 per cent of his corn-sorghum base, at a payment rate of 52 cents a bushel for corn, 49 cents for grain sorghum. Barley growers may elect up to 20 per cent additional set-aside at 42 cents per bushel. This is the only option that offers additional voluntary set-aside for barley. (If a producer with a corn-sorghum base wants to make maximum set-aside under this choice, he may offer an additional 5 or 10 per cent of that base at the 52-cent rate for corn, 49 cent rate for sorghum, at the option of the Secretary of Agriculture who will announce at a later date whether he will accept this offer.)

(2) He may set aside an additional 10 per cent of his corn

sorghum base at an 80-cent rate for corn, 76-cent rate for grain sorghum, provided he agrees to reduce his corn sorghum plantings from last year by twice the acreage of his additional set-aside. (If a producer wants to make maximum set-aside under this choice, he may offer an additional 5 per cent of his corn-sorghum base at the 80-cent rate for corn, 76-cent rate for sorghum, at the option of the Secretary of Agriculture who will announce at a later date whether he will accept this offer. If the additional 5 per cent offer is accepted, the producer must also reduce his corn-sorghum plantings from last year by twice the acreage of this additional offer.)

Loans will be available on all program crops grown on participating farms in compliance with program provisions.

### SET-ASIDE REQUIREMENTS FOR 1972

Set-aside land must be cropland of average productivity which would normally be used to produce a crop in 1972. Small, irregular shaped areas within a field or narrow strips around a woods is ineligible. Land devoted to brush and trees is not eligible. Low, poorly drained areas, hog lots and pastures, cow lots and pastures and other low productive land is not eligible. New land recently brought into crop production

with roots, stumps, low areas, burned areas, and not level cannot be used for set-aside acreage. Minimum eligible area must be at least 1 chain in width with a minimum size of 1 acre. No payment will be made on ineligible land.

### LEASE AND/OR SALE OF COTTON ALLOTMENT

The final date to lease or sell cotton allotment has been extended from March 1 to March 10. Producers are urged to make sure that leases are filed by March 10.

### MEASUREMENT SERVICE

The County ASCS Office is currently accepting requests for measurement services of all crops and land uses for 1972. The rates are: \$3.00 plus 75 cents per acre with a minimum rate per farm of \$7.50; except if there is less than 3.0 to be measured the minimum rate per farm is \$6.00.

### SKIP ROWS FOR PEANUTS

A change is being made effective for 1972 regarding skip-row rules for peanuts. Under the change any area planted to peanuts will be considered as entirely devoted to peanuts regardless of the planting pattern.

### 1972 REAP

Applications are now being accepted for cost-sharing under the 1972 Reap.

Listed below are practices and other low shares offered:

Permanent Vegetative Cover, Approx. \$21.80 per acre

Planting Forest Trees, \$14.00 per acre.

Preparation of land for Tree Planting, Approx. \$20.00 per acre.

Improving stand of Forest Trees, \$10.00 per acre.

Cover crops, \$2.00 per acre.

Lime on Farmland, \$3.00 per acre.

Open Ditch Drainage, \$.08 per cu. yd.

Tile Drainage, \$.12 per lin. ft.

Land Shaping or Grading, Approx. \$20.00 per acre.

### PLENTY OF LAND

Although more and more land is being devoted to uses other than farming, the U.S. isn't about to run out of farmland. The U. S. Department of Agriculture estimates that there are some 49 million acres of woods and pastures in the Delta, Midwest and Southeast regions that could be profitable if shifted into cropland.

Going to school, boys and girls, may not be a pleasure trip but it will look like one after you back the world for a living.

Many Chevrolet dealers are announcing the most complete warranty ever put on a used car. Count your blessings. First, you're protected where it counts most: on the major mechanical parts of the car you buy. And that lasts a healthy 30 days or 2000 miles, whichever comes first. Second, you get special savings on any parts or labor you need. From the day you buy for

24 months. Third, the special savings are good all across the country at most Chevrolet dealers. Say you're on a vacation trip and find you need service. You just get in touch with a participating Chevrolet dealership. All you do is show an OK warranty identification card you receive when you buy your used car.

Your Chevrolet dealers' new OK warranty. It takes the guesswork out of used car buying.
