

Winfall Home Demonstration Club Meets With President

The Winfall Home Demonstration Club met at the home of their president, Mrs. Mattie Modlin, recently.

The meeting opened with devotion led by Mrs. Modlin. A Hymn, "My Faith Looks Up To Thee," was followed by The Lord's Prayer repeated in unison.

Mrs. Lamb, Club Secretary, ready the minutes of the last meeting which was held at Mrs. Rosie Felton's home. After Roll Call and completion of the business session, Mrs. Ida Norman gave a wonderful demonstration on "Follow The Guide." She showed a bulletin on how to balance meals for a family and how essential it is for school children. She demonstrated how to get children to like milk, by using a quart of milk and McCormick food coloring. The milk was tested by each member.

It was also stated that a fruit juice could be used for an

extra treat, a scoop of vanilla ice cream.

Mrs. Taylor told the members about the proper methods of canning or preserving foods. She explained the method of Waterbury canning and pressure canning to inactivate bacteria and botulism in foods. The members had a good argument on whether preserves and pickles will keep in Mayonnaise or Salad Dressing jars as well as regular Mason Canning jars. We decided to continue this debate at the next meeting.

The hostess served a salad plate consisting of chicken salad, sliced tomatoes, crackers, cookies, and lemonade.

Helen Gaither Club Meets

The Helen Gaither

Homemakers Club met Thursday night, June 15, with Mrs. Fred Matthews as hostess. The president, Mrs. Maude Lane, presided. "Onward, Ever Onward," was sung. Mrs. Matthews gave the devotional, reading the 24th Psalm. The Lord's Prayer was repeated in unison.

Mrs. Paige Underwood gave the demonstration on "Sewing." She showed the members how to bind arm holes and put in sleeves. This was enjoyed by all.

Mrs. Clifford Perry gave a talk on "Dairy Month." She urged each one to drink milk and get it in our food.

Mrs. Lane conducted the business session. The Rummage Sale was announced, which would be held June 21 at the County Building.

The Nominating Committee gave the following report: President, Mrs. Warner Madre; Vice President, Mrs. John Corprew; and Secretary, Mrs. Clifford Perry.

After the Collect was repeated and the meeting adjourned, the group was delightfully entertained by two of Mrs. Matthews' music pupils, Karen Lane and Gwyn Trueblood, who rendered several piano selections.

Delicious refreshments were served by the hostess to the twelve members and three visitors present.

WEEKLY RECIPE

Sarah Anne Sheridan

What could be more refreshing during this hot weather than chilled desserts using fresh fruit? Try this refreshing and cool dessert some hot night.

Peach Pie

- 1 c peach syrup
- 1 pkg lemon flavored gelatin
- 1/2 c cold water
- 1 pt vanilla ice cream
- 1/8 t almond extract
- Fresh sliced peaches about 2 to 2 1/2 cups
- 1 9-inch baked pastry shell
- Whipped cream

Heat syrup to boiling. Remove from heat and add lemon gelatin. Stir until dissolved. Add cold water. Cut ice cream into six pieces and add to hot liquid. Stir until melted. Add almond extract. Chill until mixture begins to thicken and mound when spooned—about 40 minutes. Fold in 2 cups of peaches. Pour into cooled, baked pastry shell. Chill until firm. Garnish with whipped cream and peach slices.

Women Police

More and more women are joining the nation's police forces and it's an encouraging trend. With crime at an all-time high and steadily rising, any change in law enforcement procedure which produces results is welcome.

There are, of course, some jobs only men should be asked to do. Other than these women are right to expect equal consideration, if they offer equal performance and capability.

Interestingly, in some fields of police work they are reportedly better than men. They provoke fewer violent reactions in some forms of arrest, it's said. Women undercover agents are said to perform at least as well as men in apprehending drug sellers. They have excelled in other forms of police work.

But as for sending in a 110-pound beauty (or two or three) to wrestle with bank robbers, gang toughies,

Permanent Care Labels Will Arrive July 3

RALEIGH -- Consumers can look forward to more convenient information and added protection when they purchase wearing apparel.

A ruling by the Federal Trade Commission (FTC) will require that all articles of clothing, with a few exceptions, must bear permanent labels that clearly and simply disclose the washing and cleaning instructions, says Harriet Tutterow, extension clothing specialist, North Carolina State University.

The new rule goes into effect July 3. It means that all articles of clothing manufactured after July 3 must have labels with washing or cleaning instructions permanently attached to them rather than on throw-away tags that can easily be misplaced.

The consumer then always will have at her fingertips the correct information to insure that she will not ruin clothing by using the wrong method of cleaning.

Home sewers will benefit from the new rule, too. All textiles and fabrics that are sold for the making of wearing apparel must be accompanied by similar care labels that the home sewer can attach permanently to her finished article.

Manufacturers of both home sewing fabrics and wearing apparel are responsible for providing the labels for their products. The FTC specifically states that all labels must be designed to last as long as the articles they are attached to and must remain legible for the life of the garment.

Hosiery is included under the new rule. Exceptions are shoes, gloves, and items used exclusively as headwear. The Commission also is considering exempting some low-priced items—probably those selling for \$3 or less—but these must be completely washable in order to qualify for an exemption.

HEALTH - HOME - BEAUTY

(Practical Hints For The Modern Woman)

By April Rhodes

You can have almost instant doughnuts by cutting the centers from prepared canned biscuits and fry in hot oil. Glaze or roll in sugar. Don't forget to fry the "holes."

A good cream rinse will do wonders for your hair which will probably take a beating from sun, wind and swimming this summer.

Take along several lemons on your camping trip. They're good for removing the smell of fish, onion and other strong odors from the hands.

Even though it's summer, remember that plunging into extremely cold water can cause sudden cramps that account for the drowning of many expert swimmers.

If you have small children, there's nothing handier than bags made out of net for socks and other small articles. Sweaters hold their shape better when washed in a net bag. The bags are inexpensive—make several from one yard of net.

When buying light bulbs

check the average number of hours the bulb will burn as well as the wattage.

Did you know you can speed your cleaning chores by first listing jobs to be done room by room? Complete one task at a time.

Swimming uses more muscles at one time than any other exercise. Join a swim club this summer. The water treatment also relaxes muscles and tense persons.

Those who are allergic to molds should beware of molds which thrive on books, especially old books, during long spells of damp weather.

Postmarks

One of innovations of the new Postal Service, no longer under congressional control, is the elimination of localities from postmarks. Instead, the receiver finds only "U.S. Postal Service" printed on the outside of his letter.

The Postal Service offers several reasons why this represents progress, why this is necessary, etc. Whatever the justifications, however, they are outweighed by the very obvious fact that this system hides from the addressee the point of mailing and the exact time, the traditional means by which he can trace postal service.

Rear Shoulder Room	51.6"	49.8"	46.0"	48.6"
Steering	Rack-and-Pinion	Recirculating Ball	Recirculating Ball	Roller Steering

PERFORMANCE FACTS

When it comes to performance, Pinto is right up there. It has an engine with power to handle American expressways with ease... yet has remarkable gas economy. Its sporty rack-and-pinion steering makes for smooth, precise handling... turns in a tight 31.5 ft. circle! Its lower/wider stance gives good stability. Pinto's roomier interior gives you and your passengers lots of driving and riding comfort.

FORD DEALER SERVICE FACILITIES

Over 5,600 dealers are conveniently located everywhere in the country. No matter where you go, or where you're at, you'll find a Ford Dealer ready to offer you fine, fast, friendly service. His up-to-date electronic diagnostic equipment, factory-trained mechanics, and well-stocked parts department all help serve you with better ideas in service, too.

SERVICE REQUIREMENTS

In maintenance matters, Pinto was designed to save you money and time. Many of Pinto's service requirements are engineered for easy do-it-yourself maintenance. Don't forget, when buying a small car, to be sure to take into consideration such things as normal oil changes, major chassis lube intervals and brake adjustments... all cost factors in the economy of operating a subcompact. For instance, Pinto requires normal oil changes only after 6,000 miles. And it normally goes an average of 3 years (36,000 miles) before a major chassis lube is needed. As for brake adjustments, Pinto's brakes are self-adjusting. When you get back to basics, you get back to Ford.

*Based on a comparison of sticker prices for base 2-door models. Dealer preparation, if any, destination charges, title and taxes are extra.
