As far as astronomers now know, the stars have little if anything to do with our weather, but our sun is all-important and actually is the source of all our weather. The stars---and other suns---may have long range bearings on our sun and on our weather but that question is not yet finally resolved.

ON CEILING LIMIT

The Senate Finance Committee has approved Housepassed legislation to impose a \$250 billion ceiling on government spending and granted President Nixon unpresidented authority to cut the budget where he sees fit.

BUSING BILL DIES

Senate voted 50 to 26 to shelve the bill designed to put an end to almost all busing for school desegregation. It was strangled by a filibuster by Northern liberals.
