

**POLLUTION IS A MENACE TO ALL AMERICANS ...
NOT JUST THOSE IN THE "WRONG" NEIGHBORHOODS**

Out of sight, out of mind. Perhaps ugly scenes like this are never viewed by most of us but they do exist. They are a menace, not just to those who live or work in the vicinity of polluted areas, but to all of us. You can't isolate something like pollution . . . it spreads its insidious filth through every level of society, contaminating our air, water, and land today and threatening disastrous consequences for generations to come. We must *all* mobilize against the elements that contribute to pollution — beginning with the empty beer can tossed out of a car window, to the conditions that permit rat-infested slum areas. Our environment is a precious heritage . . . let's preserve it for ourselves and for future Americans!
