Rules For Sun Bathing

It's Safety First For Food! stated today by your Home Economics Extension Agent, Mrs. M. B. Taylor.

Summer is outdoor cooking time. It's picnic time. But-- it's also bacteria time. And the latter we don't need. Bacteria flourishes in hot weather-- and food poisoning is a most unwelcome guest at any outing. Remember, in the sun, it is very important that picnic foods are kept wholesome from the time you leave home to the time you settle down to eat. To keep food wholesome in hot weather the Animal and

Plant Health Inspection Service of USDA wants you to remember a few things you should follow in the preparation and preservation of perishable foods.

Favorite picnic foods like hamburgers, fried chicken, salads, frankfurters, and sandwiches all need the same care, basically. The first thing to remember when going on a picnic is that germs grow faster in hot weather, so, naturally, there are some "pre-picnic" precautions you should take after you reach the picnic site.

Mr. and Mrs. Louis Clark Monds of Tyner announce the engagement of their daughter Karen Louette Monds to Edward J. Winslow. Winslow is the son of Clinton Ray and the late Mrs. Winslow, of Rt. 1, Hertford.

Miss Monds is employed by the Bank of North Carolina in Hertford. Winslow is employed by Fiberform in Edenton.

The wedding is set for Aug. 5 at 3 p.m. at Center Hill Baptist Church.

Friends and relatives are invited to attend.
