**We're selling them faster than we can make them.**

There just aren't enough Perdue chickens to go around.  
Ask the lady in Pennsylvania. She wrote to tell us she'd been driving 100 miles to get her Perdue chicken. That was before the gasoline crisis. Now she's probably sitting home, waiting for Perdue chickens to come to her.

Right now, there are two northeastern chains with close to 200 supermarkets (and hundreds of thousands of shoppers) waiting for their first shipments of Perdue broilers.  
The president of a prestigious chain of food stores has personally called our headquarters twice to ask us for our birds. And twice we've had to say we're sorry.

We could sell an extra eight million birds a year...if we had them. But we don't have them. And that's the problem.  
**Perdue's problem is your opportunity.**

There are four poultry distributors in New York City who want us to sell to them on a regular basis. We can't do it. Which means all the retailers they sell to aren't getting their share of our birds. (Without their business, we have more than half the retailers in New York City selling our birds exclusively.)

We'll pay you the highest rates ever on DelMarVa to build a Perdue broiler house and start growing our chickens now. (But not all eight million of them.)

We have a somewhat different problem in Philadelphia. One of our regular distributors has quadrupled his sales of Perdue chickens. He wants to continue multiplying. We've had to stunt his growth.

We'll pay you the highest rates currently in North Carolina to build a Perdue broiler house and start growing our chickens now (But not all eight million of them.)

These are just a few of the people who are waiting for you to start growing Perdue Chickens.

Suppose you build a 16,000 capacity house. We'll guarantee you a minimum income of \$35,200 over a 22 flock period. And with good management, there's no reason you can't earn a lot more.

So what are you waiting for? You can

**Grow with Perdue**

Minimum Guarantee For 4 Years	Average Payment For 4 Years
<b>\$35,200</b> (For 22 Flocks)	<b>\$42,169</b> (For 22 Flocks)

It's a steady, secure income. You get a check every nine or ten weeks. You get it rain or shine. And you get it in the winter when nothing else is growing.

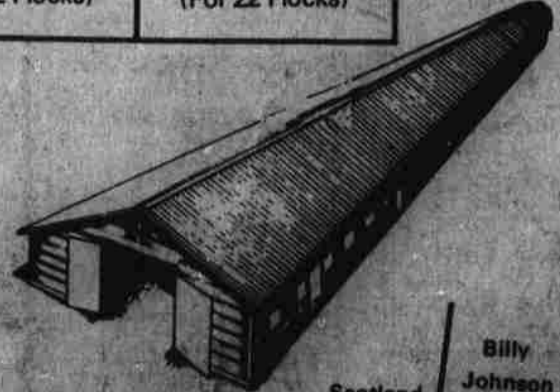

PERDUE OPEN HOUSE

For some growers, it's a part-time income because they don't have to spend more than three-to-four hours a day in the broiler house. But for other growers with more than one house, it could be a full-time job.

How much time you put into your broiler business depends on how much money you want to take out of it.

**You can't grow them faster than we can sell them.**

We already have customers for the chickens you're about to grow.
