

FIRE DRILL—During Fire Prevention Week, the Winfall Volunteer Fire Department held fire drills Tuesday morning at Central Grammar School and Union School. In the pictures above, students at the grammar school

quickly move onto the lawn and patiently wait there. It took the students and teachers one minute to evacuate the building. (Newbern photos)

Pirates Bow To Knapp

After two recent victories, the Perquimans Pirates tasted the bitterness of defeat when they lost to the Knapp Knights by a score of 18-0 last Friday night.

The Knights got an early lead. Knapp team was put into scoring position on the Pirates 12-yard line. Quarterback Danny Evans made connection with Jim Godfrey to put Knapp on the scoreboard.

In the second quarter, Evans and Godfrey teamed up again for a 25-yard touchdown putting Knapp in a comfortable 12-0 lead. The first half continued to be an aggressive one for the Knights as the team's defensive back made an interception giving Knapp the advantage at the Pirates' 35-yard line. Knapp made their third

touchdown, further cushioning their lead, when quarterback Evans paraded to the goal and Williams punched it over.

Despite the advantageous lead of the Knights, the Pirates did not get discouraged and threatened

to score in the second half with a drive to the Knight 15-yard line. Powerful Oliver Felton led the Pirate offense with 55 yards rushing. In spite of attempts, the Pirates only managed to obtain 123 total offensive yards.

TRAVEL ON

Wonderlust has caught up with two Extension-related groups in North Carolina.

Mickey Mouse was the host for 27 Rowan County 4-H'ers who traveled to Disneyworld in Florida as part of their newly formed 4-H travel club.

And it's westward ho for a busload of Extension Homemakers from Wayne County as they look forward to a fun-packed trip to Western North Carolina and Tennessee.

LONG, SHORT

The average length of the freeze-free season has a broad range across North Carolina. It is longest, at 290 days, on the eastern-most coastal regions of Dare and Hyde counties. It is shortest, at 150 days, in the high, northwestern area that encompasses parts of Avery, Watauga and Ashe counties. Most of the state has a freeze-free season of from 200 to 220 days.

HOW TO EARN

\$48,000.00

(with a Perdue Broiler House)

We place each flock of 16,000 birds in your broiler house for an average of 61 days. When you build a new Perdue broiler house your new minimum guarantee for raising 30 flocks is \$48,000.00. But good management can earn your more. An average grower will earn \$1900 for each flock. . . for 30 flocks that would come to \$57,000.00. And if you are above average you can earn even more.

Most farm incomes are seasonal and depend on weather conditions and fluctuating market prices. But, by growing Perdue broilers in a mechanized broiler house, your guaranteed income is independent of all this. You get your check every 10 weeks. . . all seasons of the year. Rain or shine. What other crops carry a guaranteed income like Perdue chickens? Why, you can't be sure what you will make out of this crop! But, with Perdue you not only know the minimum you can make on your first flock, but the next 29 flocks that follow.

Growing Perdue broilers doesn't require you to work long hours to harvest your crop (flock). It only takes 3 hours a day to tend to the broilers and when harvest time comes Perdue sends a crew to catch the birds for processing. Many of our growers tell us it's the easiest money they've ever made. So why not enjoy making your next \$48,000 by growing Perdue broilers. Ask you neighbor...then talk with Perdue.
