

PRESEASON TRAINING—COA's Dolphins demonstrate their exciting brand of basketball in preseason training. The team opens the season with a tournament at Frederick Military Academy Dec. 5 and 6. (COA Photo)

Dolphins Prepare

Although College of the Albemarle does not open its 1974-75 basketball season until December, the Dolphins are hard at work in preseason training.

According to Coach Jim Harvey, the Dolphins are very small in size this year. "We have one starter from last year, Peter James and one reserve back, Tim Brown, both of Norfolk," Harvey said.

"As far as the starting team goes, I probably have three solid positions in James, 5' 9" at guard, Burrell Raines of Fayetteville, 6' 2", forward and Randy Hammel of Colonial Heights, Va., 6' 4", forward. The other two (positions) are still up for grabs."

Possible starters for the Dolphins include Gary Mercer of Knapp High School, Doug Edwards of Colonial Heights, Willie Bond of Edenton, Willie Bell of Plymouth, Johnny Bailey of Asheville and Warren

Stewart of Virginia Beach. All are about 5' 9". Mike Cowell of Virginia Beach, 6'4", is expected to see a lot of action at center this season.

Last year, the Dolphins were 14 and 11 and tied for third place in the Cavalier-Tarheel Conference.

"I feel that even with the lack of size, we'll make up for it in our quickness. We also have good shooters," the coach said. "Spectators will find our basketball very exciting because we will press the whole ball game and rush a lot."

"We are definitely in a building year although I think we'll be surprising to the opposition."

The Dolphins open the season with a tournament at Frederick Military Academy in Portsmouth Dec. 5 and 6. The first home game is scheduled for Dec. 13 against Sandhills Community College of Southern Pines.

"I'm going to have to start buying Great Shape instead of whole milk."

An independent research firm recently asked 100 women if they could taste the difference between Maola's low-fat Great Shape and two leading brands of regular whole milk.

Most of the women who usually drink regular milk couldn't tell the difference. We don't think you'll be able to, either.

Give up calories without giving up taste.
