

YOUR WOODLAND...  
YOUR CONSERVATION PROGRAM

# New Forest Booklet Published By SCS

A new woodland booklet which tells how wise use of forested land can enhance environmental quality has been published by the Soil Conservation Service and is now available in North Carolina, it was announced today by State Conservationist Jesse L. Hicks at Raleigh.

The 16-page booklet, illustrated with photographs and drawings, is entitled: "Your Woodland... Your Conservation Program" and is available without charge from county offices of the Soil Conservation Service or through local soil

and water conservation districts.

It may also be purchased from the Superintendent of Documents, Government Printing Office, Washington, for 30 cents a copy.

In addition to describing techniques where wise planting, harvesting and care of trees can improve the environment, the booklet discusses commercial timber production, wildlife habitat, recreation, food for domestic or wild animals and birds, erosion and sediment control, and flood protection.

"In view of the large amount of woodland owned by individual citizens in North Carolina, we believe this book will considerable appeal in the state," said Jesse Hicks. "We invite anyone concerned about woodland developments to get a copy."

The booklet also tells of woodland assistance available through county offices of the Soil Conservation Service, through soil and water conservation districts and through other agencies which work with land owners.

**Tips To Keep Cool In Hot Weather**

When it's hot, it's hot! So, let's face it, if you want to keep cool, learn a few simple tricks.

For starters, keep a cool head. Getting hot under the collar from anger steams you up even more than the weather. Roll with the pressures. Your blood pressure will benefit, too.

Keep a cool body by wearing light colored clothes which reflect heat. When outside protect yourself against the searing sun by wearing a porous cap that permits air to circulate freely around your head. Cut down on heat-producing fatty foods by eating lighter foods and drink lots of liquids.

Watering down hot roofs and awnings and using an attic fan are also ideas to help you keep cool this summer!

## Don Juan News

By MAUDE M. WHITE  
Our "Make it Happen Trophy" has been presented to two more winners. They are Velma Boone and Mary Furlough.

Velma is from Veronica Rountree's Department. She received the trophy for her work in making cuffs and also helping with repairs in that department.

Mary Furlough is also from Veronica Rountree's Department. She has been a member of the Don Juan family for many years. Several weeks ago she suggested that rubber strips be placed on the table of her machine to minimize the slipping of the collar bands. As a result of her suggestion, the same arrangement was made for the runcollar tops and has proven to be very helpful to these operations also. We are grateful for this suggestion and the initiative display on the part of Mary. Congratulation Mary — We want to congratulate Velma also.

Mr. Charlie Shneer visited the Don Juan family last week. It was nice seeing him

again. He came by bus, but if his eyes keep improving he hopes to soon be able to drive. He's doing real well after having operations on both eyes.

We want to express our deepest sympathy to Charlie Louis Parker who lost his grandmother last week — Mrs. Laura Lauther.

Mrs. Lillian Copeland's children were all home over the weekend.

Mr. W.T. Bunch was honored by his children at Arrow Head. Mr. & Mrs. James E. Perry, Mr. & Mrs. Norman Bunch, Mr. & Mrs. Wilbur Ray Bunch, Mr. & Mrs. Jake Hollowell and Mr. & Mrs. Morris Small.

Mr. & Mrs. Joe Swanner and family spent the weekend at their cottage on Chowan River.

Mrs. America Robertson, Mr. & Mrs. Maurice Harrell went to Suffolk, Va. and Elizabeth City on Saturday.
