In addition to his own views, the author has researched and incorporated in this book numerous excerpts from newspaper speeches and other sources. All of those who are concerned with the present situation should read "Political Rip-Off."

# Everybody's Doing It

Not all farmers are Perdue growers...but then, not all Perdue growers are farmers. Teachers, doctors, preachers, secretaries, tugboat captains, factory workers raise chickens. Some are young, some old, some active, some retired. There is no typical Perdue broiler grower. But they all have something in common. They're making additional income with a guarantee. And the average grower payment now is about \$1950 every ten weeks.

John Paul Roberson of Williamston is a full time telephone employee. Alice is a full time wife and mother. The Roberson broiler house is a joint operation. Paul's two brothers are his partners in the farm. When Paul started raising chickens, he stopped raising row crops. The additional income from broilers helps offset today's higher cost of living. And it's a sure thing with a written guarantee. Isn't it time you talked chicken with Perdue? For more information call 919-332-8111 collect.
