

## Executive Order Is Considered

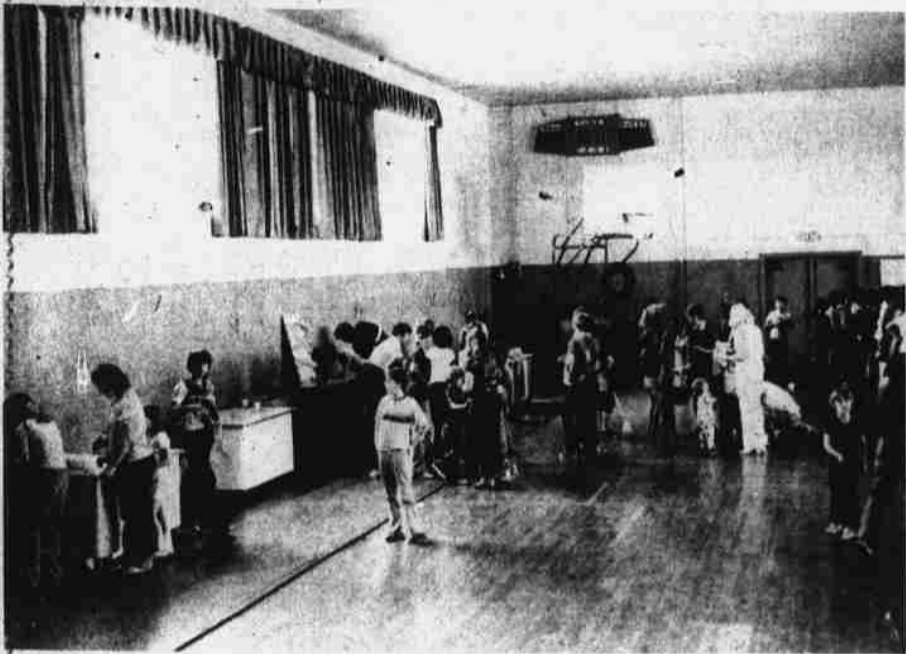

According to Toni Zindel, president of the Cape Hatteras Anglers Club, an Executive Order if forthcoming which would close all public lands to all types of off-road vehicles. The anticipated order would amend order number 11644 issued in February, 1972 which states that public lands are open to off-road vehicles unless sufficient reason exists to believe there is ecological damage of an irreversible nature. Essentially, according to Zindel, the order would close public lands to off-road vehicles, specifically those of a four-wheel drive type. The anglers club expressed concern that no hearings are being held on this matter for input and comments from the public and because of that, they are urging interested citizens to write their Senators and Congressman. Zindel pointed out that the economy of Hatteras Island depends on fisherman and those that enjoy the beach, most of whom arrive in off-road vehicles.
