## Favors Access For Off-Road Vehicles

TO THE EDITOR:

The following is a letter dated April 29, 1977 to The Honorable Walter B. Jones, United States House of Representatives, Washington, D.C.

Dear Mr. Jones:

In this week's Perquimans Weekly, our local Hertford newspaper, there is an article of which I am enclosing a copy, that concerns me deeply. According to the article, "...an Executive Order is forthcoming which would close all public lands to all types of off-road vehicles. The anticipated order would amend order number 11644 issued February, 1972 which states that public lands are open to off-road vehicles unless sufficient reason exists to believe there is ecological damage of an irreversible nature."

The article goes on to state that according to Toni Zindel who is president of the Cape Hatteras Anglers Club, the order would close public lands to off-road vehicles, specifically those of a four-wheel drive type, and that no hearings are being held on this matter for input and comments from the public.

If what I have stated in the above is factual and the Federal Government does, in fact, intend to close public lands to off-road vehicles, I personally feel this would be an awful mistake as far as the North Carolina Outer Banks are concerned.

For several years I have driven on the beach in licensed 4 WD vehicles and enjoyed surf fishing from Oregon Inlet to Hatteras Village, as many of your constituents have. I have seen hundreds of beach vehicles concentrated in good fishing areas. I have seen millions of dollars spent on sandbagging and dredging operations that were negated by one good north-easter. None of these things affected the beach one iota. I have come to the conclusion that the ocean and beach have minds of their own. The beach is constantly changing from the daily actions of the high and low tides and from the seasonal storms. This is the way it has always been and the way it will always be and anyone who thinks that a few vehicles can cause even a minuscule of the beach degradation caused by one 24 hour storm is not being realistic.

The National Park Service has the power now to cite law violators, and laws exist against hunting and property damage on Federal land. If these are enforced, this is sufficient. Let's not go overboard on this thing until all viewpoints have been considered.

I will deeply appreciate anything you can do to discourage this order. Also, I am sending a copy of this letter to Senator Helms, soliciting his support and to the editors of *The Perquimans Weekly* in Hertford and *The Daily Advance* in Elizabeth City. Hopefully, many others will write to you for your support in this cause.

**Forget her not this Mother's Day**

I haven't known a Mother, yet, who didn't deserve a kind "we love you," a card, a box of candy, or flowers on her special day — Mother's Day.

Don't forget, Dad. Nor you, Daughter, or Son. Mother has displayed unbending patience and good humor more than once to see you through the sniffles, the mumps, long

hair, crazy clothes, and all the rest. You've really put her to the test all these years.

Now, this Sunday, give her the appreciation she deserves. Tell her, again, "We love you, Mom." If you're shy, give her an appropriate card. But Don't Forget Your Mom on Mother's Day!

## People

Parker Copeland returned to his home Saturday after being a patient in Norfolk General Hospital for several weeks.

Mr. and Mrs. Louis Tarkenton and family of Portsmouth, Va. visited Mrs. William Elliott during the weekend.

**WEEKEND IN TENN.**

Mr. and Mrs. Asa Stallings and son, Eddie, spent the weekend in Knoxville, Tenn. visiting with Mr. and Mrs. Robert Hill and children.

**BETTER FIT**

Having a garment that fits well, is often more than a matter of luck. It's a matter of skill.

Knowing what alterations have to be made in a pattern or garment for a better fit is the key.
