PHASE I AT PCHS

Phase I is the work that will be done at Perquimans High School using the approximately \$1 million in bond.

The work included in Phase I will NOT exceed \$1 million in cost.

Phase I includes 35,000

square feet of floor space in both new and renovated areas.

All of Phase I construction and renovation will be located on the south side (main building side) of the "campus."

Included in Phase I is a new field house facility and public restrooms at the high school. The new field house will be constructed and completed when the new school term begins in the fall.

I support the Phase I concept realizing that the Perquimans County Board of Education has considered several alternatives.

Next week, I will address improvement of educational institutions.
