Follow do's and don'ts for electric food processors

Did you know that the way a specific food is chopped, minced, puried, blended, creamed, kneaded, emulsified or whatever will vary somewhat from processor to processor because of the differences in horsepower and in revolutions per minute of blades and discs and indeed the degree of sharpness and contour of blades and discs. The wisest policy, obviously is to study, thoroughly, the instruction manual that accompanies your particular processor, then to experiment with simple jobs-slicing or shredding potatoes, chopping onions, crumbing bread so that you get the feel of your machine and discover its strengths and weaknesses before you attempt a costly or complicated recipe.

Despite the fact that each food-processor manufacturer has built myriad safeguards into his machine and clearly spelled out the Do's and Don'ts for its safe operation, accidents can and do happen. No machine is 100 percent safe, and must thus be used with extreme care, alertness and respect. Although the various processors differ somewhat in design and operation, the following safety guidelines apply to all:

STUDY your processor's instruction manual thoroughly until you are completely familiar with its care and use. Pay particular attention to the discussions of the various discs and blades, the assembling and disassembling of the machine's component parts, the On-Off mechanism and, needless to add, the safe operation of the processor.

NEVER push food down the feed tube with your hand. Always use the

plastic pusher. And never stick your fingers down the feed tube when the machine is running.

Extension News

north carolina AGRICULTURAL EXTENSION SERVICE

By Judith G. Bailey, Ext. 4H Agent

NEVER fit a blade or disc on the power base's spindle with out first setting the work bowl into place. You might accidentally activate the motor.

NEVER uncover a work bowl until after the blades or discs have come to a complete stop.

NEVER force your processor beyond its capability. Note: Every processor has an automatic overload shut-off to prevent the motor from burning out. Read your instruction booklet carefully for directions on what to do should this happen to your processor.

ALWAYS leave the metal chopping blade in place when lifting the work bowl from the power base (this is to prevent leakage down the central spindle).

ALWAYS remove the metal chopping blade before emptying the work bowl-with one exception: liquids that can be poured from the work bowl. You must, however, hold the chopping blade in place while

pouring (least it fall into the soup) by pressing down on the plastic hub.

ALWAYS stop the machine when arranging a new batch of foods to be sliced or shredded in the feed tube. Doing so not only reduces the risk of accident but also insures you of precisely cut slices or shreds. There are times, however, when foods should be added with the motor running, but only when the metal chopping blade or plastic mixing blade are being used. Some examples: dropping ice cubes down the feed tube to be crushed (or chunks of Parmesan cheese to be grated), adding liquids or dry ingredients to batters or doughs, adding oil to mayonnaise, etc.

ALWAYS unplug the processor when changing discs or blades or when disassembling the machine. And store the machine unplugged.

ALWAYS disassemble and store your processor as the manufacturer recommends.

ALWAYS handle all processor blades and discs as gingerly as you would your sharpest carving knife. Store them immediately after washing them-well out of reach of small children, well away from counter or shelf edges where they may tumble off and hurt someone.

To get more information and first hand experience on the use of Food Processors, plan to attend a workshop entitled 1-2-3 Process. This workshop will be held on Thursday, February 24 at 10 A.M. and at 7 P.M. at the County Extension Office.

Workshop registrator fee-\$2, deadline is Monday, February 21. Call 426-7697 or 426-5428 to register.

Market summary

Corn prices were steady to 15 cents higher and soybeans were 1 to 6 cents higher through Thursday, January 27 compared to the same period of the previous week, according to the N.C. Dept. of Agriculture Market News Service. No. 2 yellow shelled corn ranged mostly \$2.60 to \$2.75 in the Eastern part of the state and \$2.80 to \$2.90 in the Piedmont. No. 1 yellow soybeans ranged mostly \$5.74 to \$5.95 in the East and \$5.59 to \$5.74 in the Piedmont; No. 2 red winter wheat \$3.07 to \$3.20; No. 2 red oats \$1.20 to \$1.40. Soybean meal for the processing plant ranged \$201 to \$208.50 per ton for 44 percent. New crop prices quoted for harvest delivery corn \$2.58 to \$2.82, soybeans \$5.90 to \$6.21, Wheat \$2.84 to \$3.20.

A total of 7,774 feeder pigs were sold on 12 of the state graded sales during week of January 24. Prices were \$8 to \$10 higher per cwt on 40 to 80 pound pigs. US 1-2 pigs weighing 40-50 pounds averaged \$123.57 per hundred pounds with No. 3s \$109.77; 50-60 pound 1-2s averaged \$110.65, No. 3s \$96.63; 60-70 pound 1-2s \$98.89, No. 3s \$89.51; 70-80 pound 1-2s \$85.63 per hundred pounds with No. 3s \$83.13.

At ten weekly livestock auctions held within the state the week of January 24 a total of 3,758 cattle and 2,203 hogs were sold. Prices for slaughter cows were firm to \$2.50 higher and feeder calves \$1 to \$5 higher. Utility and Commercial slaughter cows brought \$37 to \$40.50 with Canner and Cutler at \$30 to \$41. Choice slaughter calves 350-550 pounds sold from \$52 to \$57 with good grade at \$49 to \$54. Choice slaughter steers above 800 pounds brought \$56.50 to \$59.50 with few Good at \$53 to \$54.50. Choice slaughter heifers

above 700 pounds brought \$54 to \$57.50 with Good at \$48 to \$54. Slaughter Bulls yield grade 1 and 2 above 1000 pounds sold from \$42 to \$54 per cwt. Medium Frame No. 1 thickness 400-500 pound feeder steers brought \$61 to \$71 with Small Frame No. 1s at \$58 to \$65, same weight Medium Frame No. 1 heifers brought \$51 to \$57 with Small Frame No. 1s at \$48 to \$55. Beef type Feeder Cows carrying average flesh brought \$35 to \$41 with thin flesh at \$34 to \$36 per hundred pounds. Baby calves under three weeks of age brought \$20 to \$75 per head. Market hogs 200-240 pounds sold from \$57.40 to \$59.30 with sows 450 pounds up at \$48.80 to \$53.80.

Sweet potatoe prices were weaker this past week. Supplies are fully adequate. Demand moderate. Fifty pound cartons of cured US No. 1s on January 27 were quoted at \$4 to \$4.50 few \$3.75, perferred label \$4.75 to \$5; Jumbos \$2 to \$2.50. Prices paid to growers for No. 1s packed out at end of belt were \$2 to \$2.25.

Egg prices were about 1 to 1 1/4 cents higher compared to those of the previous week. Supplies were moderate. Demand was good. The N.C. weighted average price quoted on January 27 for small lot sales of cartoned grade A eggs delivered to stores was 68.64 cents per dozen for Large.

SCS watershed projects

By **TONY SHORT** Dist. Conservationist

In Perquimans and Chowan Counties there are three watershed drainage projects. These projects are sponsored by the Soil Conservation Service, under public law 566, and local drainage districts.

The first of these local projects was Burnt Mill Watershed on the county line on US-17. It drains about 10,500 acres of Chowan and Perquimans counties. Pollock Swamp Watershed project west of Edenton, was installed in 1966; it drains about 15,000 acres. The Bear Swamp Watershed project was completed in 1981. It is east of Center Hill and drains about 13,000 acres.

Each watershed district has a board of commissioners that oversees the project. These commissioners are local contacts for landowners that are within the watershed.

Landowners in the watersheds are assessed for drainage. This is determined basically by the benefits the individual's parcel of land receives by drainage. There is an original cost of the project for which each landowner is assessed. Also there is an annual maintenance assessment, this is used to perform any necessary maintenance. This maintenance involves mowing ditch banks to remove vegetation, repairing bridges and culverts, and dipping out sediment from the canals.

An annual inspection by the Soil Conservation Service and the drainage commissioners is made on each project to check for any malfunctions. Landowners are urged to let their Commissioners or the Soil Conservation representative know when a problem arises in the watershed system.

LEGALS

NOTICE OF ADMINISTRATION
Having qualified as Administrator of the estate of T. Ward Hunter, deceased, late of Perquimans County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Route 2, Box 25, Hertford, N.C. on or before the 8th day of July 1983 or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

DEPARTMENT OF AGRICULTURE SOIL CONSERVATION SERVICE PERQUIMANS COUNTY UNION SCHOOL

RC&D MEASURE NORTH CAROLINA AGENCY: Soil Conservation Service
ACTION: Notice of a Finding of No Significant Impact
SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Council on Environmental Quality Guidelines (40 CFR Part 1500) and the Soil Conservation Service Guidelines (7 CFR Part 650), the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Perquimans County Union School, RC&D Measure, Perquimans County, North Carolina.

LEGALS

FOR FURTHER INFORMATION CONTACT: Mr. Coy A. Garrett, State Conservationist, Soil Conservation Service, Room 544, Federal Building, 310 New Bern Avenue, Raleigh, North Carolina 27611. Telephone (919) 755-4210.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Coy A. Garrett, State Conservationist has determined that the preparation and review of an environmental impact statement are not needed for this project.

Perquimans County Union School RC&D Measure, North Carolina, Notice of a Finding of No Significant Impact.

The measure concerns a plan for reducing flooding and for improving drainage on the school grounds. The planned works of improvement include installing catch basins, pipes and sub-surface drainage tubing. Grading and shaping will be done to improve surface drainage and to eliminate ponding. All disturbed areas will be seeded with adapted permanent vegetation.

LEGALS

address. Basis data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Coy A. Garrett.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the Federal Register.

NOTICE OF FILING OF APPLICATION FOR CAMA MAJOR DEVELOPMENT PERMIT

Pursuant to NCGS 113A-119(b), the Department of Natural Resources and Community Development hereby gives Public Notice that and application for a development permit in an Area of Environmental Concern as designated under the CAMA was received on January 3, 1983. According to said application Calvin Lane proposes to grade his high ground and backfill an existing bulkhead at his property located at lot No. 5 in the Billy's Beach Subdivision, Perquimans County.
