

Jobless may get benefits

Thousands of jobless North Carolinians may be eligible for extended benefits according to Glenn B. Jernigan, chairman of the N.C. Employment Security Commission (ESC).

Mrs. Alice W. Bond, manager of The Edenton ESC announced the Extended Benefits (EB) Program "triggered on" with the week ending January 29 and the first payable week will be the week ending February 19. The program is activated legally by a period of sustained high unemployment, and it begins the third week after the week in which there is a "trigger on" indicator.

Jernigan said, "We estimate that up to 15,000 unemployed individuals, who are currently filing claims for unemployment insurance benefits, may be eligible to receive up to 13 additional weeks of benefits." EB payments have the same monetary value as regular unemployment insurance benefits. The EB Program will last 13 weeks, and it can be extended only if the unemployment rate maintains a level high enough to "trigger in" another period.

Employers and unemployed workers are advised to contact the ESC local office.
