Trained salespeople will help you select a single light fixture, choose a paint for a hallway, or re-do the whole house.

We've got new and improved product displays: new signing to help you quickly locate the merchandise you need; more merchandise on our showroom floor; shopping carts and a quick checkout counter for your convenience; plus all our previous service of trained salespeople and credit, and delivery availability to mention a few.

We've made our store more appealing to today's fashion and value conscious consumer. The decorating section has lighting, wallpaper, paint, kitchen cabinets, bath accessories, floor covering and other merchandise to decorate your home. You'll find a new display of doors and windows, set up so you can see how they'll look in your home. We've set aside part of the store to display lumber, plywood, siding, paneling, mouldings and other wood products. And there's a separate sales office to better serve our professional builders and contractors.

We're proud of the new Lowe's! We believe that we've made a good thing a lot better and we think you'll agree. Come in and see for yourself!
