Pirates defeated

By KEN CASTELLOE
The Perquimans Pirates were dropped from the Albemarle 2A Conference race for the playoffs last Friday night when the Currituck Knights handed them a 28-6 defeat in Barco.

The Knights recieved the opening kickoff and drove 72 yards to score with 5:46 remaining in the first quarter when tailback Ryan Patterson scored from 19 yards over the right side of the line. Behind the efforts of the Knight offensive line, Patterson rushed for a total of 217 yards for the game.

The Knights scored again with 9:25 remaining in the half when Randy Gregory scored from 1-yard out giving the Knights a 14-0 lead after the extra point. The Pirates were hurt by costly mistakes in the second period that nullified any kind of scoring drive from taking place.

The Pirates finally got on the board with a 14-yard touchdown pass from Teton Reid to Alton James with 30 seconds left in the third period. After a two-point conversion failed the Pirates were behind 21-6.

The final score was staged when QB George Cecil carried the ball over from one-yard out making the final score 28-6 after the extra point.

The Pirates will face their last conference opponent, the Gates County Red Barons in the last game of the 1983 season at Memorial Field on Friday night.

In the other game, Overman's Insurance Agencies lost to the

Why "Universal Life"?

1. Low Cost Protection.
2. Cash Value grows at a very high current rate of interest . . . Today's rates! There is no upper limit on how much interest can be credited. The Minimum GUARANTEED rate for the life of the policy is 4%. The interest you earn on "Universal Life" is not only high, it is tax sheltered, too! You pay NO taxes on interest in the year credited, and interest continues to compound tax-free as long as the policy is in force.
3. You can adjust both your coverage and premiums whenever you like, without terminating the policy or buying a new one. "Universal life" permits you to change your premium payment to correspond with your cash flow without losing your protection. It is the only policy you'll ever need. Your policy fits you! Not the other way around.
4. In summary . . . we have yet to run into a policy (Traditional Type Policy) we could not double or triple the Face Amount or double or triple the cash value at the insured's age 65, for the same cost. In most instances, we reduce the cost if the client wishes.

Why The Insurance Shop?

1. We represent most all major companies that market "Universal Life" . . . we also represent THE company which designed the ORIGINAL "Universal Life Policy" . . . E.F. Hutton life Insurance Company.
2. We have TWO, not one, computers to handle this product. What does this mean to you? SERVICE! We know of no other company south of Virginia and east of Greenville, with this capability. (The Insurance Shop is also licensed in the state of Virginia.) When you have your "Universal Life Policy", you will undoubtedly want at some time to exercise its flexibility, and in doing so, you may want a computer printout to see what changes will take place. You will not have to wait for your agent to send off to Texas or New York for it, when you deal with us. You can get your printout that day!
3. It is our opinion, and also the opinion of many major brokerage firms in the United States, that there are three reasons an agent would not want to sell "Universal Life" policies:
 1. His or her company does not have it.
 2. He or she is not familiar with the product or its market.
 3. LOW COMMISSION for the agent.

Whatever your agents reason . . . WE WOULD LOVE TO LET MAX, our double-drive computer, RUN A PROPOSAL FOR YOU!

It would only take about 15 minutes of your time.

We're sure YOU WILL LOVE IT!
