Safety Tips

Sharing The Road

The rules of the road were written with all types of motor vehicles in mind. Whether you're driving an 18-wheel truck or a two-wheeled motorcycle, it is important to respect the rules of the road. Here, from the Motorcycle Safety Foundation, are some tips for motorcyclists on how to share the road safely with others.

- Avoid riding the gap or slot between lanes of traffic since a maneuver by another vehicle may suddenly block your path.
 - Always leave room when passing parked cars. A door that is opened suddenly may become a hazard in your path.
 - Avoid crowding other vehicles and demanding contested space.
 - Refrain from riding on the shoulder to avoid traffic slow ups.
- Remember you are sharing the road with many other highway users. Courtesy is important if you want others to safely share the road with you.
