

THERMO-WELD — Custom "10"

in the tradition of
Excellence

State of the art technology has created a Vinyl Welding process.

FUSION-WELDED FRAMES assure you top Quality.

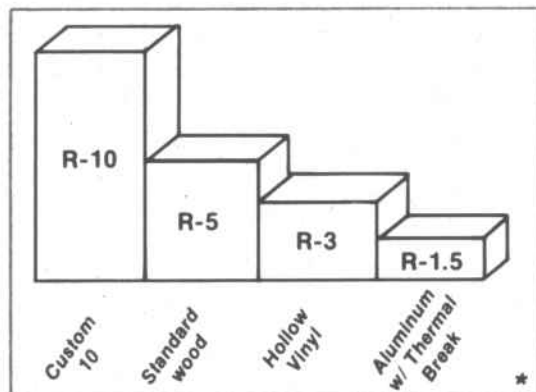

- * High Strength - Low Weight
- * Strong and Rigid
- * Truly Square

Thermo-Weld assures you of a lifetime of problem-free operation and enjoyment.

Thermo-Weld stops air and moisture penetration compared to other style frames.

Unique...
INSULATED MAIN FRAME gives you maximum insulation and potential savings.

THERMO-WELD Custom "10" combines the insulating value of "all-vinyl" frames with polystyrene insulation.
Compare the difference...

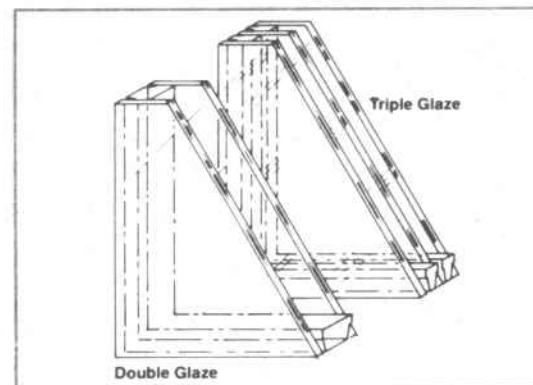

The higher the R-value, the greater the insulating value.

THERMO-WELD Custom "10" assures you of the newest technology to lower your fuel usage.

YOU SAVE MORE!!

* R-value information for Custom-10 from Industry Sources.

Optimum Quality...
INSULATING GLASS
