Hertford to update CAMA Land Use Plan

HERTFORD, NC—The Town of Hertford is in the process of updating its Coastal Area Management Act (CAMA) Land Use Plan which was originally prepared in 1976 and updated last in 1981. CAMA regulations require affected communities, through land use planning, to establish and enforce policies to guide development of the community. The Land Use Plan must be updated every five (5) years. The Town has contracted with L.E. Wooten and Company, a Raleigh, NC, engineering, planning and

architecture firm, to prepare the 1986 Land Use Plan Update. A work plan has been developed for the update of the Land Use Plan which indicates completion of the planning process in August 1986. A data base has been developed and existing plans, policies and regulations have been reviewed.

Citizen participation in the planning process is needed in order to gain public perception of land development problems, needs and solutions. A public education-participation questionnaire will be distributed in order

to provide input to the planning process. In addition, citizens are invited to attend two public participation meetings. The first public meeting will be held on Monday, April 21, 1986 at 7 p.m. at Town Hall.

Copies of Hertford's Work Plan for the CAMA Land Use Plan Up-

date, a description of the CAMA Planning Process and public participation questionnaires are available at Town Hall (114 Grubb Street, Hertford, NC). Questionnaires are requested to be returned to the Town by April 15, 1986.
