### Correct frame

A picture frame should be compatible with the style and proportion of the art work. Frames, mats and inner frames should never be of equal width.

### Metal frames

Chrome and metal frames look best in formal, modern settings; rough wood or barn board frames fit well in informal rooms.

## Single parents face stress

Raising children in today's single parent and working mother-father environments creates increased challenges and parental stress, says Leonora J. Mackey. Many parents recognize the need to receive as much help as they can get to make the task an easier one.

Offering practical alternatives, Mackey, who is the Currituck County director for correlation of youth services, will teach "Parenting" this fall at College of The Albemarle. The 20-hour, continuing education course will begin on Monday, Sept. 8 in Room A-201 on the main campus.

The intent of the course, said

Mackey, is to help parents to better communicate with their offspring in a way that leads to the resolution of conflicts through the use of logical consequence to modify negative behavior of the child. "Establishing a strong relationship, with few conflicts, is mainly a matter of learning to really listen to what your child is saying," the teacher explained, "and presenting choices that the child can then understand and accept."

The two-hour classes will meet each Monday through Nov. 10. Registration will be held during the first two class meetings. A \$15 registration fee is required.

## Recipes for scones

Scones are traditional Scottish griddle cakes. The biscuit like texture of a scone can also be produced by baking the scones in an oven rather than on a griddle. Combine fruit in your batter, for a delightful breakfast treat. Herbed scones are delicious with the evening meal. Serve both with lots of whipped butter.

### WHOLE WHEAT RAISIN SCONES

- 2 cups whole-wheat flour
- 3 tablespoons brown sugar
- 2 teaspoons baking powder
- 1 teaspoon allspice
- 1/2 teaspoon each, baking soda, salt
- 1/2 cup cold butter or margarine
- 1 egg
- 3/4 cup buttermilk
- 1/2 cup raisins, chopped

Combine flour, sugar baking powder, allspice, soda and salt in a mixing bowl. Cut butter into small pieces and work into flour mixture with a

pastry blender (or in a food processor) until blended. Beat egg and buttermilk and stir into mixture along with raisins. Turn dough out on a floured board and knead for 2 minutes. Shape into 2 thick circles, 5-inches each in diameter. Cut each into quarters and place on a lightly greased baking sheet with wedges about 1/2-inch apart. Brush with melted butter or a beaten egg white, if desired. Bake in a pre-heated 400-degree oven for 20 to 25 minutes, or until nicely browned. Serve warm. Makes 8 scones.

**INSIGHT INTO EYESIGHT**  
**Dr. A.F. Downum**  
OPTOMETRIST  
**STRAIGHTENING CROOKED EYES**  
In a child whose eyes are normally aligned, both eyes focus on an object at the same time. When the brain receives the image, it is the result of what is seen by both eyes fused into a single image. This is known as binocular single vision.  
But when one eye is out of line, the child will see two objects. One image will show the object in its proper position. The misaligned eye will show the object displaced or off center, a phenomenon known as double vision. A child who experiences double vision will compensate for it by ignoring the image received by the misaligned eye. He suppresses the disturbing second image. The misaligned eye then becomes a "lazy eye," referred to medically as amblyopia.  
Sometimes the misaligned eye can be straightened by wearing corrective glasses alone or in combination with drops and exercises. The success of any treatment depends on how soon it begins.
