### Waterfowl weekend scheduled

Nags Head—The Ninth Annual North Carolina Waterfowl Weekend will be held Oct. 9-11 at the Armada Inn in Nags Head with approximately 40 participants in the juried show.

The show will feature exhibits, a decoy painting contest, an auction and the sale of waterfowl arts and photography.

It opens on Friday, Oct. 9 from 12 noon to 7:30 p.m. Saturday hours are from 10 a.m. to 9 p.m. with an auction of items donated by the artisans at 7 p.m. On Sunday the show begins at 11 a.m. and closes at 4 p.m.

Tickets are \$1 at the door with children under 12 free.

The Outer Banks Woman's Club is sponsoring the show that formerly was sponsored by the Outer Banks Chamber of Commerce. Clubmembers are quilting a wildfowl quilt and selling tickets to help offset expenses of the show. All proceeds will be used for community service projects.

"The club is excited about sponsoring its newest club project," said president Julia Haywood. "We have 13 years of successful experience in sponsoring craft shows and we're pleased to add the annual waterfowl weekend as a project."

"The show closed out quickly with some of the area's most talented artists, carvers and artisans," Haywood said. "They are coming from as far away as California, Maryland, and Delaware."

### Scholarships benefit students

Area college students are benefiting from Wachovia Bank and Trust Company scholarships for technical students in the state's community college system.

The \$500 scholarships were recently awarded to College of The Albemarle students Sharon Spence and Nancy Hendee. Spence, an Associate Degree Nursing student from Elizabeth City, has a 3.56 grade point average and is a member of the Phi Theta Kappa honor fraternity. Hendee, an Edenton resident, has a 3.67 grade point average in Business Administration Technology. She presently serves as treasurer of the COA Student Senate and is also a member of Phi Theta Kappa.

Wachovia technical scholarships are awarded annually to second-year students based on financial need, scholastic promise and performance during their first year of training. The scholarships are designed to assist deserving students in acquiring modern technical skills and to help bolster North Carolina's available trained workforce.
