Winslow said firefighters from all county departments and equipment from Perquimans County, Belvidere-Chappell Hill, Hertford, Durants Neck and Winfall helped to battle the fire.

Smoke continued to pour from the building and flames were still flickering Tuesday morning. Winslow said that the fire was contained, but could not be put out. He explained that water penetrates only to a certain depth into the individual seed, but the natural oils in the seed prevent the total abcomption seed prevent the total absorption of the water.

Co-owner of the business, Charles Ward, estimated that seed worth \$150,000 was lost in the fire.

A salvage expert from Memphis, Tenn. was contacted by owners Ward and Ned Nixon, Winslow said. He said that the expert was expected to arrive on Tuesday, and would advise Ward and Nixon, as well as firefighters, on handling the situation. Winslow said that it is possible to save some of the seed.

The metal warehouse, located next to the gin, was completely ruined. The top caved in, and the sides buckled and ruptured. Also lost in the blaze was a John Deere tractor and a conveyor belt.
