

Pirates roll to 53-12 win over private school

BY OWEN HASSELL
The Daily Advance

So much for Perquimans looking ahead to the following Friday in Gatesville.

The Pirates made sure to take care of business before the pivotal Coastal 10 Conference showdown against Gates, evident in a 53-12 trouncing of Virginia private school Nansmond-Suffolk on Saturday afternoon.

"This team won the state in their league last year," Perquimans interim coach Aaron Burke said. "You can't overlook teams whether it's non-conference or not, we had to come play ball."

It was a non-conference game postponed from Friday night due to school being canceled that day at Perquimans.

Although the field was in good shape despite heavy rains that drenched the area

from Tuesday-Thursday, permission was not granted to play hence moving it to early Saturday afternoon.

The day and time change brought with it a lighter crowd and plenty of summer-

like heat, the latter which wilted the Saints (1-3) by the second half.

"We could tell that they were tired," said Perquimans quarterback Dallas Hall, who ran for three touchdowns

and passed for another. "We saw they were moving a little slower, and they're not very deep."

Although the Pirates (4-2, 2-0 Coastal 10) only boasted about six or seven more play-

ers, perhaps it made a difference.

"Maybe the best played a big factor," Burke said. "It got us the first quarter where we started off a little lazy."

And faced another deficit, this time 6-0 after a 57-yard pass play to James Madison commit Keshawn Moore.

What followed was Perquimans hitting its stride on offense to the tune of 46-straight points before Nansmond-Suffolk could muster a late touchdown run.

By that point the clock was running without interruption, just the second time the Pirates have made that happen this season. The other was a 54-0 result against Creswell.

Hall credits a rejuvenated offensive line that welcomed back from injury a senior up front in Garth Upton.

There were certainly holes to run through for Duwan

Williams, who finished with more than 200 yards and two touchdowns, as well as a third through the air thanks to a Hall pass.

Saturday's contest was capped off by a fumble recovery and return to the end zone by Michael Waters as well as a 59-yard touchdown scamper by Stanford Dantzier.

The victory also keeps Perquimans' season-long goals within reach, which includes a winning record, home play-off game, and yes, winning a conference championship.

"It'll be the biggest game and it's the test to let us know where we are," Burke said. "Gates is well-coached and plays good football."

"It's anybody's conference this year I believe, and we have a good chance to get it," Hall said. "But this game will tell us a lot. We have to prepare and go into it hard."

Wade Betts: Bugs can ruin your time outdoors

Permethrin is a great invention, it keeps bugs from bothering us outdoorsy type people, but "it don't do miracles." Spray it on your clothes, let dry and it will keep the creepy crawlies away.

Just don't spray it on the clothes while wearing them. Permethrin even lasts through several washings. On a recent bow hunt I "discovered" that it doesn't last from the spring turkey season until archery season at the end of the summer.

Mosquitoes are a problem during the late summer,

finding bug spray that won't alarm the deer is another problem. I've tried Repel with DEET, No Stinking Bugs, Skeeter Beater and several others, they all work and best I can tell they all put deer on high alert. One time I had a 5-pointer come in from upwind and just before he was in bow range he stopped, put his nose in the air and would not come any closer. I'm not for sure what happened but I blamed it on my bug spray.

From what I've been told Themacell is the answer. Themacells use butane to heat a wafer or mat saturated

with repellent, the resulting vapor creates a 15x15-foot zone of protection. My family and I have been using them for a couple of years for nighttime catfishing. They work, one at the bow of the Ranger and one at the stern. My initial Themacell test was in my backyard, I was changing the oil in my motorcycle and the mosquitoes were thick. My new Mosquito Repeller was still in the box, thinking this would be a good test I installed a butane cartridge and wafer and turned it on. In just a few minutes the "skeeters" were gone and I did my bike

maintenance in peace.

In the next few weeks I'll be using my Themacell for deer hunting. The instructions say to lay the unit on a flat surface with the grill facing up, but fellow hunters have told me that they will work effectively hanging from a piece of cord. I hadn't tried it before because it made sense that the wafer should be up because heat rises and I don't have a flat surface in any of my stands big enough for me and a Mosquito Repeller. Mine now has a do-it-yourself lanyard. Themacell makes the original Re-

pellent as well as lanterns and torches. The light portion of the lanterns and torches are battery powered, they work great for fishing and camping. We use our lantern on the back deck for bug free grilling and socializing. Soon I'll know for myself how well Themacells work in the deer stand.

Hunting the edge of a swamp is different from hunting a pine woods. My

last spring sprayed clothes worked just fine where there were no mosquitoes, but in the stand by the creek was a different story. At one point I thought they were going to carry me back to where the big ones were. I had applied Repel with 40 percent DEET to my hands, face and neck but my arms, legs, chest and back went unprotected and I paid the price. I'm tough, but that hunt ended early.

Lady Pirates snap back to win in four sets

From Staff Reports

MANTEO — The Perquimans volleyball team lost the first set in Coastal 10 Conference play Sept. 10, but came back to win

against Manteo.

The Lady Pirates fell 29-27 in the first set then went on to win the next three with wins of 25-9, 25-7 and 25-22.

Cayce Copley had 15 kills and 17 digs while Samantha

Midgett added 12 service points, nine kills and six aces.

Perquimans (10-3, 8-1 Coastal 10) also got eight kills and seven service points from Autumn Bate-

man as well as 13 digs from Cala Robertson.

Robertson also had 13 service points and four aces.

STATE OF NORTH CAROLINA UTILITIES COMMISSION RALEIGH
DOCKET NO. E-22, SUB 536

BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of Application by Virginia Electric and Power Company, d/b/a Dominion North Carolina Power, for Approval of Demand Side Management and Energy Efficiency Cost Recovery Rider Pursuant to G.S. 62-133.9 and Commission Rule R8-69

PUBLIC NOTICE

NOTICE IS HEREBY GIVEN that the North Carolina Utilities Commission has scheduled a public hearing in the annual demand-side management (DSM) and energy efficiency (EE) cost recovery proceeding for Virginia Electric and Power Company, d/b/a Dominion North Carolina Power (DNCP). The public hearing has been scheduled to begin Monday, November 7, 2016, immediately following the 1:30 p.m. hearing in Docket No. E-22, Sub 534, in Commission Hearing Room 2115, Dobbs Building, 430 North Salisbury Street, Raleigh, North Carolina. This proceeding is being held pursuant to the provisions of G.S. 62-133.9 and Commission Rule R8-69 for the purpose of determining whether an increment or decrement rider is required to allow DNCP to recover all reasonable and prudent costs incurred for adoption and implementation of new DSM and new EE measures and appropriate incentives. Public witness testimony will be received in accordance with Commission Rule R1-21(g).

On August 16, 2016, DNCP filed its application for approval of DSM/EE cost recovery pursuant to G.S. 62-133.9 and Commission Rule R8-69. By its application, DNCP requests a DSM/EE cost recovery rider effective for service rendered on and after January 1, 2017. This request, exclusive of the regulatory fee, would result in the following kilowatt-hour (kWh) charges: 0.062 cents per kWh for residential customers; 0.060 cents per kWh for small general service and public authority customers; 0.054 cents per kWh for large general service customers. No DSM/EE rate rider would be applicable to rate schedules 6VP, NS, outdoor lighting and traffic lighting customers. Specific information may be obtained from the Office of the Chief Clerk, North Carolina Utilities Commission, Raleigh, North Carolina, where a copy of DNCP's application is available for review by the public, and on the Commission's website at www.ncuc.net.

The Public Staff is authorized by statute to represent consumers in proceedings before the Commission. Written statements to the Public Staff should include any information that the writers wish to be considered by the Public Staff in its investigation of the matter. Such statements should be addressed to Christopher J. Ayers, Executive Director, Public Staff 4326 Mail Service Center, Raleigh, North Carolina 27699-4300.

The Attorney General is also authorized by statute to represent consumers in proceedings before the Commission. Statements to the Attorney General should be addressed to The Honorable Roy Cooper, Attorney General, 9001 Mail Service Center, Raleigh, North Carolina, 27699-9001.

Written statements are not evidence unless persons appear at a public hearing and testify concerning the information contained in their written statements.

Any person desiring to intervene in the proceeding as a formal party of record should file a petition under North Carolina Utilities Commission Rules R1-5 and R1-19 on or before Monday, October 24, 2016. Such petitions should be filed with the Chief Clerk of the North Carolina Utilities Commission, 4325 Mail Service Center, Raleigh, North Carolina 27699-4300. The direct testimony and exhibits of expert witnesses to be presented by interveners should also be filed with the Commission on or before Monday, October 24, 2016.

ISSUED BY ORDER OF THE COMMISSION.

This the 31st day of August, 2016.
