majority of the students asked the officer how could he have the audacity to ask them to leave the grounds of the cafeteria when it is private property owned by the school which is also private. By that time, I approached the scene trying to be inquisitive. Afterwards the officer entered his car and called for other officers. When they arrived, they began picking out certain persons even though there were 20 people there. They managed to "drag" five brothers and one sister to their cars and took them to jail. It appears that the "cops" stereotype our brothers and sisters because

each person who they arrested had large "afros".

After this scene, every "white" person that rode down that street was stoned and became the target of bottles for about an hour. Next we learned that our unfortunate brothers and sisters were the victims of a state charge of inciting a riot.

Now they are faced with the chance of serving five to ten years which would ruin their future.

I feel that it is the responsibility of every person that reads this article to help in any way possible. The first step should be to write the city hall of Jackson, Tennessee and that address

PLEASE HELP US SAVE THE FUTURE OF OUR BROTHERS AND SISTERS - "RIGHT ON!"

**Syphilis Genocide**

TUSKEGEE, Ala. - A federal study, better known as the Tuskegee Study in which hundreds of black men afflicted with syphilis went untreated for several decades, has been called "genocide in its rawest form," by a member of the Alabama Advisory Committee to the U.S. Commission on Civil Rights.

Dr. John L. Cashin Jr., Huntsville physician, said, "It's an inexcusable situation. No one could conceive of this being done on a white group."

"This country's white majority is very good at covering up its own inequities," said Cashin.

**Nixon Favors 6-Year Term**

WASHINGTON (UPI) - President Nixon favors a constitutional amendment which could limit future presidents to a single term of six years duration, congressional leaders reported.

Nixon briefed Republican and Democratic leaders from both houses on his ideas for reforming campaign procedures so another Watergate scandal never occurs, and for creation of a 17-member bipartisan commission to make election reform recommendations by the end of this year.

**VACCINATION DISCONTINUED**

RALEIGH - Smallpox vaccination will no longer be required in North Carolina for children.

The 1973 General Assembly has amended the State Immunization Law, granting the State Board of Health authority to decide whether routine smallpox vaccination of children is in the best interest of public health.

The N.C. State Board of Health, at its regular quarterly meeting in Pinehurst, has followed through by adopting regulations omitting smallpox vaccination from the list of required immunizations for children.

This action follows recommendation by the U.S. Public Health Service, the American Academy of Pediatrics, and other medical groups that routine smallpox vaccination of children be discontinued in the United States.

According to Dr. J. N. MacCormack, chief of the Communicable Disease Control Section of the State Board of Health, the move was based on statistics which show a rapid decline in the world-wide incidence of smallpox. There has not been a case of smallpox reported in North Carolina since 1948. The public health official pointed out that the risk of dying from smallpox in this country is far less than that

persons traveling to countries where smallpox still exists will be required to take a smallpox vaccination.

of dying from vaccine complications.

Dr. MacCormack cautioned, however, that
