FRED GUIDRY'S THREE SONS WILL EARN MORE IN 1973 THAN HE HAS EARNED FOR 200 YEARS.

It's not unusual to find three college graduates in the same American family. Unless it's a family from Opelousas, Louisiana, right in the center of rural black America.

Fred Guidry has been a sawmill worker since 1933, earning at most \$2400 a year. He's locked in a 200-year-old cycle of poverty, ignorance and prejudice that seems almost unbreakable.

But his sons broke out. For openers, James, Fred and Larry graduated from Xavier University, New Orleans, in '68, '69 and '72.

After a year with IBM, James joined the Los Alamos Project, earned an M.S. in Computer Sciences and is now at Carnegie Mellon studying Urban Affairs.

Fred researches solar physics at NASA's Goddard Space Flight Center.

Larry will return to his Ph.D. studies in chemistry at the University of Pittsburgh after completing his hitch with Uncle Sam.

Fred Guidry's three sons have an earning potential he only dreamed of. But they might never have made it without the United Negro College Fund.

We support Xavier and 39 other private colleges that help 45,000 students break out of the rural backwaters and urban ghettos of this country and into 20th century America.

We know there's a place for them. We know we can help them find it. All we need is money. Yours.

A Mind is a Terrible Thing to Waste.

Give to the United Negro College Fund.
