## At Shiloh Baptist

# CHURCH CEREMONY PLANNED SUNDAY

Rev. J. Ray Butler

WINSTON-SALEM - A new annex and renovated facilities will be dedicated here Sunday, April 21, at Shiloh Baptist Church at 916 12th St. The fourth anniversary of the Rev. J. Ray Butler, pastor, will also be observed.

Guest speaker at the dedication and open house of the \$250,000 annex and facilities will be the Rev. J. C. Harris, pastor of First Baptist Church in Statesville. The service begins at 3 p.m. and a tour of the church and reception will follow the formal service.

Among the improvements made under the present administration are additional seating in the church balcony; a new parking lot on a two-acre site; renovation of South Educational Hall-10 classrooms and lounges for men and women will full toilet facilities, and a nursery.

Renovation and development of West Assembly Hall with five classrooms, a nurses board room, small stage, reception space for small socials and library--all of which can be converted into dining space.

The newly built North Fellowship Hall with seating spaced for 150.

The R.M. Pitts Memorial Chapel with a seating capacity of 110 and furnished. The Chapel is designed for religious educational facilities and assembly meetings.

The renovated Sanctuary with a "New Look", has a new acoustical ceiling, lights, chandeliers and expansion of the main choir stand. The seating capacity in the Sanctuary is 1,050 and, with the chapel seating, 1,160. The Sanctuary and chapel are painted Ivory-white.

## Ebony, Jet Publisher

# J. H. Johnson To Address A&T Grads

GREENSBORO - A Greensboro Coliseum, beginning at 11 a.m. Another highlight of the convocation baccalaureate-commencement exercises of the A&T State University here Sunday, May 5.

The degrees, including 165 master's degrees, will be awarded by Chancellor, Dr. Lewis C. Dowdy, following the keynote address by the honorable John H. Johnson, publisher of Ebony and Jet magazines, and one of the nation's most outstanding businessmen.

The A&T exercises will be held in the huge

Coliseum, beginning at 11 a.m. Another highlight of the convocation baccalaureate-commencement exercises of the A&T State University here Sunday, May 5.

The commissions will be presented by Col. William B. Neal, professor of military science for the Army ROTC program and to 32 cadets of the Air Force ROTC program.

Special music for the exercises will be performed by the A&T concert choir and symphonic band.

Immediately following the exercises, Dr. and Mrs. Dowdy will host graduating seniors and their parents at a 1 p.m. reception in the Coliseum.

Also being held in connection with the annual commencement exercises will be the annual Alumni Weekend, planned by the A&T National Alumni Association for May 3-5.

Headquarters for the alumni will be the Golden Eagle Motor Inn, site of the association's annual meeting and alumni mixer on May 3 and another mixer on May 4.

Participating in the reunion will be the classes of 1929, 1939, 1949, 1959,

1969, 1934, 1944, 1954, 1964, and 1974.

The other highlight of the Alumni Weekend will be the association's Awards

Dinner to be held in the new Student Dining Center at A&T on May 4 at 7 p.m.

Other activities will include an alumni tour, a reunion breakfast and a luncheon.

## 'Energy Crisis' Not A Failure Of Science

GREENSBORO -- The nation's energy crisis is not a failure of science and technology, but a failure of the "politics of science," according to an award-winning University of North Carolina physicist.

"I am sort of glad that we had this crisis," said Dr. Dietrich Schroeder, teacher and researcher at Chapel Hill, "because it makes us think about alternatives."

Schroeder was in Greensboro Saturday as keynote speaker for a meeting of the South Atlantic Coast section of the American Association of Physics Teachers at A&T State University.

"I think the energy crisis is a one-shot affair," said Schroeder, "but it does seem to indicate that we are

going to have bigger problems in the future. Because energy is still cheap, people are going to use more and more."

Schroeder, who teaches innovative courses relating the field of physics to society, believes there has not been enough thought in the past about our nation's energy policy.

"For example, if we had politically and financially supported some alternative ways of securing oil, like we supported the development of nuclear power, who knows what would have happened," he said.

Schroeder believes there will be some lasting effects of the recent crisis.

"I just hope that Congress will develop some energy policy," he said. "There just has not been enough thought about it. I think people will begin thinking about buying a monster car next time or about adding a little more insulation to their next home."

"I also hope," said Schroeder, "that the scientists will begin thinking about social issues related to science and technology."

Teachers from North Carolina, South Carolina and Georgia heard a number of professional papers during the day-long institute.

## Installation Of Women Observed

WINSTON-SALEM - The Winston-Salem branch of the National Council of Negro Women, Inc. recently held its installation ceremony here at Shiloh Baptist Church.

Installed as president was Mrs. Manderline Seales. Other officers include Mrs. Thelma Small, first vice president; Mrs. Mavis Lloyd, second vice president; Mrs. Arrie Wright, third vice president; and Mrs. Dorothy Graham, correspondence secretary.

Also, Mrs. Mary Shore, assistant secretary; Mrs. Ruth Greene, financial secretary; Mrs. Emma Duren, journalist; Mrs. Romella Mason, treasurer; Mrs. Verne Nicholas, assistant treasurer; and Mrs. Juanita Ouboe, information specialist.

Speaker at the installation was Mrs. Virginia Newell, state coordinator of the National Council of Negro Women, Inc. Mayor Franklin Shirley also spoke at the meeting.

## Kennedy To Address Group

ATLANTA - The Voter Education Project, Inc. (VEP), an Atlanta-based organization, has announced Sen. Edward M. Kennedy will address its first annual benefit dinner on May 4 at the Hyatt Regency Atlanta.

The group has been promoting political participation and education among minorities in the South since 1962.

## NCCU Graduates Urged To 'Become Involved'

DURHAM -- Clarence Lightner, mayor of Raleigh and an alumnus of North Carolina Central University, told the university's highest ranking scholars and student leaders recently that they can bring "an infusion of morality and ethics" into the political process.

Lightner, the first black mayor of the state's capital, said he was urging students to become involved in politics because "none of us will be free until all of us are free."

"Time is not our ally," Lightner told the students at North Carolina Central's annual Awards Day, honoring both scholastic achievement and student leadership.

He noted that a recent poll showed "that 27 per cent of the public has confidence in the Presi-

dent, 21 per cent has confidence in Congress, 58 per cent believe in unidentified flying objects, and 95 per cent support the strikers."

"This is not the happiest time to be a public official or office holder, because of public distrust," Lightner said.

He said Southern office-holders (he is one of two black mayors of Southern capitals, both alumni of North Carolina Central) can be an inspiration to the world.

Graduating seniors with averages of B or better were recognized, as were students named to Who's Who Among Students in American Universities and Colleges.

Student leadership awards were made by Dr. James F. Blue, Dean of Students.

An academic achievement award for the sorority or fraternity with the

highest collective average of two semesters went to the campus chapter of Zeta Phi Beta Sorority.

The major award of the day, the Chancellor's Cup for Academic Excellence, presented to the senior with the highest cumulative average in his or her academic career, went to Mrs. Barbara S. Belanger, a mother of teenagers, who enrolled in the university through the Career Opportunities Program of the Durham city schools.

Lightner's address was

## Men And Women In Service

Clarke

SAN ANTONIO--Airman James Clarke Jr., son of Mr. and Mrs. James Clarke Sr., Rt. 1, High Point, has been assigned to Goodfellow AFB, Tex., after completing Air Force basic training.

During his six weeks at Lackland AFB, Tex., he studied the Air Force mission, organization and customs and received special instruction in human relations.

Airman Clarke has been assigned to a unit of the U.S. Air Force Security

Service for further training and duty as a communications analysis specialist.

The airman was graduated in 1966 from Dudley Senior High School in Greensboro. His wife, Barbara, is the daughter of Mr. and Mrs. William W. Webster, Rt. 11, Greensboro.

SAN ANTONIO-- Airman Lucia B. Edwards, daughter of Mr. and Mrs. Griffin A. Edwards of 215 Marshall St., Greensboro, has been assigned to Lowry AFB,

Colo., after completing Air Force basic training.

During her six weeks at the Air Training Command's Lackland AFB, Tex., she studied the Air Force mission, organization and customs and received special instruction in human relations.

The airman has been assigned to the Technical Training Center at Lowry for specialized training in the field of photography.

Airman Edwards, a 1969 graduate of Dudley Senior

Edwards

High School, received her B.S. degree in business administration from Livingstone College, Salisbury.

## She's Queen Cotton

Mrs. Bettie Pride, a 100-year-old woman of Belle Mina, Ala., is Alabama's top farmer for small acreage cotton production in 1973. Mrs. Pride holds trophy she received at the annual King Cotton luncheon in Birmingham. Her three-acre farm in Limestone County averaged 1,367 pounds per acre.

## 100-Year-Old Woman Named Cotton Champion

BIRMINGHAM, ALA. -- A 100-year-old woman is the champion small acreage cotton farmer in Alabama. Mrs. Bettie Pride of Belle Mina, produced 1,367 pounds of lint cotton per acre on her three-acre cotton patch in 1973 to win the state title in her division. She attributes her success to the tender loving care she gives her

plants.

Gov. George C. Wallace presented Mrs. Pride with a trophy during the King Cotton "parade of champions" luncheon in Birmingham recently. State industrialists, educators and agricultural experts joined Gov. Wallace in praising Mrs. Pride and other winners for their contributions to the economy.

PRODUCING HIGH yields isn't anything new for Mrs. Pride, who lives alone in a neat, white frame house surrounded by a chain link fence. In 1972, she produced 1,169 pounds of cotton per acre and became champion of the 16-county North Alabama district. The previous year, she was the Limestone County champion.

The spry and diminutive centenarian says she has been growing cotton "ever since I been in the world."

"Once her cotton is up, she spends as much time in the patch as some women do with African prized violets. She meticulously chops and picks the cotton by hand, starting as soon as the first boll begins to open. This procedure greatly increases her yield, much in the same manner as a garden gets more rosebuds per bush by careful pruning."

DESPITE HER advanced years, Mrs. Pride still spends several hours a day in her cotton patch, swinging a hoe as vigorously as a much younger person.

**Congratulations to Stephanie Gray Who Won a Bicycle During the Recent Sales Contest**

"We must give our children a sense of pride in being black. The glory of our past and the dignity of our present must lead the way to the power of our future."

ADAM CLAYTON POWELL
