WHAT IS YOUR QUESTION

Dying-Death-Estate Planning

A. J. WOLFE

CAN YOU HELP ME OUT? I WOULD LIKE TO GIVE MY BODY TO SCIENCE, BUT DON'T KNOW WHO TO CONTACT AND HOW TO DO IT. THANK YOU. (R.R.)

You can contact one of the following and they can send you the necessary forms. It is advisable to have an alternate choice of arrangement, in case at the time of death the body is not usable.

N. C. Eye and Human Tissue Bank, Inc. Maplewood Avenue Winston-Salem, N. C.

Wake Forest College Bowman-Gray School of Medicine Winston-Salem, N. C.

Duke Medical Center Dept. of Anatomy Durham, N. C.

University of N.C. School of Medicine Chapel Hill, N. C.

WHAT HAPPENS IF A PROPERTY OWNER (CEMETERY PROPERTY) DISCOVERS THAT SOMEONE ELSE HAS BEEN BURIED ON THEIR PROPERTY BY MISTAKE? CAN THE CEMETERY BE MADE TO REMOVE THE BODY? IF SO, AT WHOSE EXPENSE? (M.J.) P.S. IF THE CEMETERY REFUSES TO REMOVE THE BODY, WHAT THEN?

If the cemetery, by mistake, did in fact bury on the wrong property, they are responsible for the disinterment and the reinterment and must bare the expense to do so. First, they must secure from the Health Dept. a disinterment permit with proper authorization of the next of kin. If the cemetery should refuse to do so, then legal action would be appropriate. From your question it is not clear as to who is refusing to select a new location and why, because both would consider themselves owner of the property. Please give more definite information on exactly what happened, why, and how long it has been. I then can give some alternate suggestions for a satisfactory solution of this unfortunate situation.

IF IT IS TRUE THAT EMBALMING IS NOT REQUIRED BY LAW, HOW COME IT IS ALWAYS DONE, AND NO ONE EVER ASK THE FAMILY IF THEY WANT IT? (Mary)

It would be most unusual for a responsible member of a bereaved family to instruct the mortician, in so many words to "embalm" the body of a deceased relative. The mere fact that the body is entrusted to a funeral establishment implies permission to embalm. . . unless stated otherwise. (Some religions do not permit it.)

What is your question? Direct it to:

CROSSWORD

Crossword puzzle grid with clues for Across and Down. Clues include: 1. Drinking cups, 5. Tough fiber, 9. Biblical mount, 10. Banish (anat.), 12. Cavities (anat.), 13. Flower, 14. German (abbr.), 15. Beer ingredient, 17. Thorium (sym.), 18. Spoken, 20. Perform, 21. Sound, as a dove, 22. Othello's adviser, 24. Foot covering, 25. Tantrums (colloq.), 26. Copied, 29. Sound, as a clock, 30. Disen-cumber, 31. Pronoun, 32. England's Duke of, 35. Half an em, 36. Broad, 38. Tree (P.I.), 39. Dangerous woman, 41. Conscious, 43. Drench, 44. Domesticates, 45. Seines.

Democrats Name County

Continued from Page 2 funding for Party operations. It has been hailed by Democratic Party leaders as a "fundamental reform in political fund-raising", broadening the base of financial support for the Party and decreasing dependence upon large contributors and special interest groups. Half the net proceeds of the Telethon go to support the program and operations of the National Democratic Party. The remaining half is returned to the individual states where the donations originated for support of State and County Party operations. "Proceeds from this Telethon are the lifeblood of our North Carolina efforts at voter registration, voter education, and Party operations," said Sugg.

Area Deaths

Flake officiating. Burial followed in Carolina Biblical Garden. HAZILIP FUNERAL HOME was in charge of all arrangements.

THE SERVANT OF ABRAHAM

"AS FOR ME, THE LORD HATH LED ME IN THE WAY TO THE HOUSE OF MY MASTER'S BRETHREN." Genesis 24:27

We have heard in our time a great many things said against human nature. Indeed, there is an immemorial tradition against its trustworthiness. Our humanity has descended to us wrapt in a cloud of scandal leagues in depth, which only the wind of regeneration can disperse. We have come to entertain serious suspicions of our honesty and of the honesty of our fellow men. Perhaps this mood is not altogether without reason. Our behavior and the behavior of others have not always been true. On this ground of justifiable disappointment with ourselves and our friends we have come to think meanly of human nature. The errors, the follies, the vices, the crimes, and the sins of men are laid at the door of human nature. That is the fountain of all our woe. Corrupted in Adam, or in our pre-human ancestors, or in the polluted stream of vast and regular inheritance, we have come to think there is no health in us. Nothing good is to be expected for mankind until this corrupted humanity is renewed, re-created, glorified in God.

It requires some courage to question the truth of this tradition in the face of all the weaknesses, vices, crimes, and inhumanities that seem to support it. These terrible things are here; but they should be counted, not against human nature, but against the abuse and outrage of it.

When we complain of the mysterious order of the world, when we arraign the dumb indifference of the cosmos to human need, when we confess to a great moral disappointment as we survey the law of life and death under which we exist, we are searching in the universe for something as good and high as the soul of man. When we look for God, we look for the face that answers to our face and that is infinite, for the nature that corresponds to our nature and that is eternal. When we look for God, we look for something, for some one, worthy of the complete love and the perfect trust of our humanity. We condemn ourselves and others, we arraign the cosmos, we seek God, because our nature is great and high; our nature is great and high because God is evermore in it. This is what regeneration means; it is the renunciation of the godless life as false to our humanity; it is the affirmation of the life in God as the truth of our existence as men.

The twenty-fourth chapter of the Book of Genesis is one of the loveliest storeis ever written by the hand of man. Those of you who are familiar with it will wish to read it again. Those of you who have never read it have in store a delightful experience. The chapter is complete in itself. Every word in it is as pure as a dewdrop, and the whole story shines with the peace and lofty light of a star. Every lover of youth must feel the beauty of it, the delicacy of it, its exquisite and rare touch. Every one who reveres noble parenthood must feel its pathos and dignity.

A&T Approved For \$630,000 Grant

GREENSBORO - A&T State University has been approved for a \$630,000 grant to assist with the development of several new academic programs, a new recruitment effort, and improvements in its registration office and planning department. Announcement of the grant from the U.S. Department of Health, Education and Welfare, was made by Dr. Lewis C. Dowdy, chancellor. Dowdy said the grant was supplementary to an earlier one made by HEW, giving A&T \$2.63 million in AIDP funds for the next four years. He said the new grant and the entire AIDP program will be administered by Dr. Willie T. Ellis. Ellis said the new funds will be used to upgrade the capability of the university's Department of Industrial Technology, to implement a new cooperative food science program between A&T and the North Carolina State University at Raleigh; and to initiate a new interdisciplinary program in mass communications. Included in the Industrial Technology project will be the development of a metrology and quality control laboratory so students can gain experiences studying the behavior of metals under environmentally controlled conditions. The new food science program is designed to expand career opportunities of minorities in the food industry. The program will be operated through the school of Agriculture. In the mass communications, program the department, Continued on Page 5

Dies In

Continued from Page 1 Work Educators, the National Council of Social Workers, and the American Association of University Women.

She had served as a consultant during the two-week period prior to her death at the University of South Carolina School of Alcohol and Drug Studies and at Norfolk (Va.) State College to assist in the establishment of a Department of Gerontology.

She was selected to appear in the Personalities of the South and in the Distinguished Young Black Americans publications in 1972. Several of her articles have appeared in journals in her field. At the time of her death, she had an article pending for inclusion in the October 1975 informational series of Social Casework.

Denture problems?

OraFix holds dentures better because it spreads better.

Tests prove OraFix* spreads better than the other leading denture adhesives - cream or plastic. Other adhesives can leave gaps between dentures and gums. So food particles and air can get in causing dentures to slip. But OraFix spreads better so it can fill even tiny gaps. Result? OraFix seals and holds dentures tight.

ORAFIX, EVERYDAY. FOR THE SEAL OF CONFIDENCE.™
