ASK ME ABOUT NATURE

by Doris B. Kwakpui

Dear Mrs. K:
I have one large pine cone on this Long Leaf Pine tree in the front yard. What can I do to get the seeds to come up?

Mrs. Beulah S. Davidson

Dear Mrs. Davidson:
Seeds from pine trees have very undeveloped embryos when they are shed from the tree and do not germinate easily. Therefore, they should be placed between layers of sand, peat or sawdust in a container, put in the refrigerator at 0 to 10 degrees centigrade from three to six months, bring to room temperature and plant in a pot with a mixture of peat and garden soil.

Dear Mrs. K:
I have some onion that I have had for over a year. Do you think they will still come up if I plant them.

Mr. Mapp

Dear Mr. Mapp:
Onion seeds usually do not germinate after a year even under the best conditions.

Dear Mrs. K:
what are tap roots? Are they edible?

Ms. Dent

Dear Ms. Dent:
The taproot is the main, large root of the plant from which all other roots branch. Some tap roots which are edible, are carrots, radishes, parsnips and beets. However, some taproots are poisonous.

Dear Mrs. K:
Do viruses really kill bacteria? I would like to know as soon as possible.

A College Student

Dear College Student:
A special group of viruses called bacteriophages can kill bacteria. They enter the bacteria and cause it to disintegrate completely.

Dear Mrs. K:
I am heart sick. My dog keeps on killing chickens. My daddy said that my dog will have to go to the Pound. What can I do to stop him from killing the old chickens?

Tom

Dear Tom:
Some dogs acquire the habit of killing chickens. You can stop the dog by punishing him. Punish him in the same way that you usually do when he misbehaves.

Dear Mrs. K:
Tell me what should I say when I talk to my plants?

Tiny

Dear Tiny:
The best thing to say to your plant is to tell it how fine it looks while you are digging the soil around it, adding plant food or watering it.

ASTRO-DESTINY

- ARIES** Mar. 21 - Apr. 19
Proceeding without full knowledge of the situation can be downright foolish and disastrous.
- TAURUS** Apr. 20 - May 20
Your sense of well being is increased by the joy that your visits to a sick friend brings. He is touched by your concern.
- GEMINI** May 21 - June 20
Guard your tongue! Gemini folks should think much before they speak. It can save embarrassment.
- CANCER** June 21 - July 21
Community projects are something that demand your attention. Complaining is not always the answer.
- LEO** July 22 - Aug. 22
Your family problems are beginning to snow you under. There really is nothing to be accomplished by worrying. Things will right themselves.
- VIRGO** Aug. 23 - Sept. 22
The fascinating acquaintance you met can easily become a most important part of your life.
- LIBRA** Sept. 23 - Oct. 22
The transactions in real estate take a good deal of your time this week. Beware of shady deals.
- SCORPIO** Oct. 23 - Nov. 21
Your judgement can be faulty. Compliments should be held to a minimum. Flowery words sometime can backfire.
- SAGITTARIUS** Nov. 22 - Dec. 21
The problem that is giving you concern can be solved and patience is the key in this case.
- CAPRICORN** Dec. 22 - Jan. 19
There has been much concern over a family problem. It can be solved if you take the time to look at both sides.
- AQUARIUS** Jan. 20 - Feb. 18
Big money windfalls and the chance to gain through associates take up much of the time now.
- PISCES** Feb. 19 - Mar. 20
Your charm proves a winner. Things go well for you this week. Don't neglect things, however.

Hint #1
How to cube Jell-O
Dissolve gelatin in boiling water, add cold water, pour into shallow pan and chill 4 hours. Dip knife in warm water and cut into cubes. Dip pan in warm water and invert onto wax paper. For more tips send \$1.00 to: The New Joys of Jell-O® Recipe Book, Post Office Box 3168, Kankakee, Illinois 60901.

SPECIAL TO THE TRIBUNAL AID

FSU To Reach 100 Years In 1977

FAYETTEVILLE--State Colored Normal School was its name when founded in 1877. Now, almost 100 years later, it is Fayetteville State University and the transition has been one of astounding growth and development.
The chief administrator presently is Dr. Charles "A" Lyons, Jr., who is the seventh head of the southeastern North Carolina-based institution.
Chancellor Lyons came to Fayetteville State University in 1969, a few years before the consolidated university concept evolved. FSU is now one of the 16 campuses in the University of North Carolina System. It is also the second-oldest state supported institu-

tion of higher learning in the Tar Heel State.
Seven administrators have served as head of FSU since the founding in 1877. They are: Charles W. Chesnut (1880-1883); Dr. Ezekiel Ezra Smith (1883-1888); George Williams (1888-1895); Dr. Ezekiel Ezra Smith (1895-1898); Reverend Robert E. Fairley (1898-1899); Dr. Ezekiel Ezra Smith (1899-1933); Dr. James Ward Seabrook (1933-1956); Dr. Rudolph Jones (1956-1969); and Dr. Charles "A" Lyons, Jr., '91969-1972.
In 1972, Dr. Lyons became the first Chancellor of Fayetteville State University as FSU came under the umbrella of the 16-campus concept and became a con-

stituent institution of the University of North Carolina system.
FSU was established by Senate Bill Number 472 which was ratified by the General Assembly of North Carolina on March 8, 1877. The bill was introduced in the Senate by Thomas Nicholson from Iredell County and was known as the "Act to establish normal schools."
The University has been known by the following names: State Colored Normal School, 1877; State Colored Normal and Industrial School, 1916; State Normal School for the Negro Race, 1921; State Normal School, 1926; Fayetteville State Teachers College, 1939; Fayetteville

State College, 1968; and Fayetteville State University, 1969. The scope of the University program has been enlarged to cope with new demands.
The curriculum has expanded and prior to 1960, the only major offered was elementary education. The General Assembly revised the charter of the University in 1959 and authorized other curriculum to include Secondary Education major. Since this time, numerous non-teaching majors have been added.
fsu is a multi-campus University with its main campus located in Fayetteville, North Carolina, a city of approximately 55,000 inhabitants. According to the 1974 census, Fayetteville is the third fastest growing metropolitan area in the southeastern United States. A branch campus is located at nearby Fort Bragg-Pope Air Force Base and additional satellite campuses and FSU's Centennial

Double Celebration--Lucious Teresa Lucas, a coed at Fayetteville State (N.C.) University is in the mood for celebrating the 4th of July Bicentennial and FSU's Centennial (Founded 1877) year. The North Carolina based institution is the second-oldest state supported institution. (FSU PHOTO BY JOHN HENDERSON)

CONFERENCE TALK--The North Carolina Federation of Women's Clubs recently held their state convention in Fayetteville, North Carolina. Mrs. Thelma Henly, (center) hostess of the event, of Fayetteville, and President of the Southeastern District, welcomes State Rep. Joy Johnson (right) keynote speaker for the two-day affair and Dr. Charles "A" Lyons, Jr., (left) Chancellor of Fayetteville State University. Over 200 delegates attended the occasion.

(PHOTO BY JOHN B. HENDERSON)

SALISBURY--Joyce Bailey Johnson, a 23-year-old rising junior biology major at Livingstone College, is a transplanted Bronx, N.Y. The daughter of Mr. and Mrs. Edward K. Bailey of 515 Geroid Street, East Spencer, N.C., Joyce plans to enter medical school upon the completion of her matriculation at Livingstone.
A Libra, she enjoys dancing, sewing, playing tennis, and horseback riding.

WSSU Team Visits Conference

WINSTON-SALEM--A team of faculty members from Winston-Salem State University is attending the Institute for Services to Education (ISE) Summer Conference at Pine Manor Junior College in Boston, Massachusetts from June 20 through July 30, 1976. Those attending are Miss Caroline R. Page, Instructor of Business; Dr. Madho Singh, Professor of Biology; Mr. Henry Taylor, Instructor of Health and Physical Education; Mr. Robert J. Ward, Associate Professor of Art;

and Miss Mary Jane Williams, Assistant Professor of Mathematics. Dr. Charles F. Gray, Director of Upper Level Interdisciplinary Studies, will attend the first and last weeks of the conference.
The team's main work during the conference will be to develop new content and curriculum and to explore the possibilities for additional interdisciplinary proposals. They will participate in workshops, attend lectures, study and determine how the courses will

be made available in the curriculum, and develop teaching methodologies, techniques and strategies in accord with the interdisciplinary concept.

EMBARRASSING, BURNING

Itching?

ZEMO relieves itching fast because its special 'anti-itch' medication soothes inflamed surface tissues. Get relief with the first application of soothing, medicated ZEMO--Ointment or Liquid. zemo
