Mr. Bridges has been very active in his church and civic organizations. He was one of the first to serve on

the board of directors of the L. Richardson Memorial Hospital before the building was erected. Mr. Bridges assisted Dr. Sebastian in locating the ground where L. Richardson hospital now stands.

The first committee meeting was called by Dr. Sebastian and Mr. Bridges to be held at Mt. Sinai Baptist church, which was located on Lindsay street.

## Carry Your Xmas Packages Home With You

Advice to Christmas shoppers from the Office of Defense Transportation:

Carry your packages home with you (store delivery service has been cut 25 per cent under last year), but carry them on the buses and street cars during the off peak hours between 10 a.m. and 4 p.m.

A hat box, for example, in a crowded vehicle, takes up space equivalent to that which would accommodate another passenger. Since rush hour traffic in many cities already is nearing the saturation point, and the all-time record crush is anticipated by mid-December, there just won't be room for war workers and bundles on the same homeward-bound cars or buses during the late afternoon peak hours. Furthermore, packages in a congested vehicle reduce the fluidity of movement by passengers, necessitating longer stops.

In cases where the purchase is of such a nature that it cannot be carried, do your buying immediately. Stores are not permitted to make special delivery trips, so your buying should be done well in advance in order that the merchant can plan for the delivery of your merchandise on one of his regular trips to your neighborhood, which might be spaced a week or more apart. In this way you avoid the risk of having Christmas morning arrive before Junior's tricycle.

## Car Owners Will Have To Identify Coupons

Car owners and others holding gasoline books under mileage rationing will be required to write identification on the back of their coupons to insure against theft and misuse, the office of price administration announced today.

For most passenger cars, truck and motorcycle operators this identification will be the vehicle's license number and state of registration. Fleet drivers, using interchangeable coupon books, will write down the name and address of the fleet owner. Non-highway users of gasoline will note the name and address of the person to whom the coupons were issued.
