Bennett College Home-Making Institute Drawing Large Crowds

Large crowds were being attracted to the sessions of the 17th annual Home-Making Institute of Bennett College, held here this week.

The institute got under way Monday night with a program at the Shiloh Baptist church with the pastor, Dr. J. T. Hairston, presiding.

Tuesday night the program was held in the Charles Moore school. Wednesday night it was moved to Browning school and Thursday night to East White Oak.

The large attendance during the week may be attributed to the fact that the institute has moved into the communities and made it possible for citizens to attend without having to travel distances.

Each night the program has been similar in most respects for each community. There have been talks on victory gardens, a film on nutrition, skits and quiz programs which have carried the message of improved home and family life to the community.

Exhibits and demonstrations have been helpful in transmitting information to the communities.

An address by Miss Nannie H. Burroughs, of Washington, D. C. and the awarding of certificates to all war mothers will conclude the week.

Every mother with a son or daughter in the armed service should register with Mr. A. N. Whiting at Bennett College. Each will receive a certificate of honor and be placed on the Bennett College Honor Roll of War Mothers.

MINORITIES DISCUSSED IN INTERRACIAL MEETING

A new gesture in race relations was made here recently when an informal meeting of the classes in race relations of Bennett College and Guilford College, white, met in the home of Dr. A. D. Beitel, dean of the latter institution.

The discussions centered around the problems of India in the present world crisis with special attention given to the similarity between the situations involving minority groups in India and America.

Contributing to success of the meeting was the coffee and cookies served by Mrs. Beitel.

Other meetings of the two groups are planned during the school year.

BENNETT STUDENTS HANDLE 10,000 OIL APPLICATIONS FOR GUILFORD RATIONING BOARD

As another of their contributions to the local community, the Bennett College completed last week the tremendous task of handling 10,00 fuel oil applications for the entire population of Guilford County.

The job included the consideration of each applicant and allotment of fuel oil for the period until October 1.

Dr. Frederic A. Jackson, instructor in economics supervised the entire project.

In a letter to President David D. Jones of the college, E. M. Stanley, executive secretary of the Guilford County War Price and Rationing Board, wrote:

"We would like to express our appreciation for the fine job you and your officials did. We are mindful of the large amount of work involved, and, with the other rationing programs at this time, it would have been practically impossible to have completed this task without your assistance."
