Mrs. W.H. Smith Died Thursday Funeral Held Monday

The family and friends were deeply shocked and grieved over the passing of the beloved Mrs. Wilhelmina Holmes Smith on Thursday, March 25, 1943, at L. Richardson Memorial hospital.

She was born in Greensboro, N. C., December 12, 1912, passing at the age of 30 years and three months. She was the daughter of the late Mr. W. Calvin Holmes and Mrs. Ella L. Holmes.

She attended the public schools of the city and was graduated from Bennett College for Women in 1933, being the valedictorian of her class, president of her class and president of the student council at that time.

She taught in several schools in North Carolina and was quite active in all civic and church affairs.

She was a loyal member of St. Matthew's Methodist church, having been connected ever since her birth.

Her life was characterized by sweetness, mildness, loyalty, devotion and humility. This we find true of other members of the family.

In 1934 she married Mr. Elworth E. Smith, of Mount Airy, N. C., Rev. Mr. Brice officiating. To this union two sons were born.

She was a devoted wife and mother, a dutiful daughter and a loving sister.

Survivors: Her husband, Mr. Elworth E. Smith; one son, Elworth, E. Smith, II; her mother, Mrs. Ella L. Holmes; one sister, Mrs. Helen Booker; one brother, Mr. Harold Holmes, of Chapel Hill, N. C., and a host of relatives and friends.

Funeral service was held Monday, March 29, 1943, at St. Matthew's Methodist church at 3:30 p. m., Rev. J. E. Brower, pastor, officiating.

The program follows:
Hymn, "In the Hour of Trial," Bennett college choir.
Old Testament lesson, Rev. J. T. Hairston.
New Testament lesson, Rev. H. C. Miller.
Prayer, Rev. J. W. Shuford.
Selection, Bennett college choir.

Acknowledgement of messages of condolence, Mr. A. H. Peeler.
Obituary, Rev. P. A. Taylor.
Solo, "One Sweetly Solemn Thought," Miss Carolyn Booker.
Brief Remarks, Prof. J. A. Tarpley, Rev. R. W. Winchester, Rev. S. A. Peeler, Rev. J. Brice, Dr. D. D. Jones.
Eulogy, Rev. J. E. Brower. "I

18,000,000 Women In War Work This Year

Pointing out that women workers are unsuitable for only 56 out of 1,900 war occupations, Paul V. McNutt, chairman, war manpower commission, declared this week that approximately 18,000,000 women will be employed in war production and essential industry jobs by the end of 1943.

Opening an exhibition of "Women in War Work" at the Franklin institute in Philadelphia, Pa., Mr. McNutt urged housewives, school girls, college graduates and all women whose families can spare them to prepare to enter industry.

The exhibition, sponsored by the Franklin institute in co-operation with The Ladies' Home Journal, includes a number of pictures of Negro women in war work. It also calls attention to the fact that Negro women are now employed in war plants as electricians, welders, sheet metal workers, assemblers, machine tool operators, lathe hands, drill press operators, power machine operators, aircraft production workers, explosive operators, rubber workers and in other skilled and semi-skilled capacities in aircraft factories, ordinance plants, shipyards and garment factories.

Many of these Negro women are employed in the Philadelphia area, of which Mr. McNutt said: "As of February 1, 330 war activities employed 113,000 women. There will be a need for about 100,000 more women in essential jobs in this area by December 7, 1943.

"In the period from July, 1942, up to the first of this month, 37 per cent of the new (Continued On Page Five)

know that all things work together for good for those that love the Lord."

Selection, Bennett college choir.

Hymn, "O Master Let Me Walk With Thee."

The vast numbers of friends attending these services, the large number of beautiful flowers and the numerous messages of condolence received showed that the Holmes family had won the love of many people.

"I cannot say and I will not say, That she is dead, She is just away."

ANNOUNCEMENT

Mr. and Mrs. James Fuller, 1917 E. Market street are the proud parents of a baby boy, William Lewis, born Tuesday, March 23, at 1 a. m. Mother and son are reported doing nicely at their home.

NEGRO CHILDREN PARTICIPATE IN PRICE CONTROL

The families of approximately 500,000 Negro children in 14 Southern states will be brought into active participation in the price control, rationing and rent control programs of the Government through a project which is being undertaken immediately by the Southern Education Foundation, Washington, D. C., in cooperation with the Education Services Branch of the Office of Price Administration.

Material about the wartime measures will be distributed to 15,000 Negro teachers in the South who will in turn pass it on to pupils to be taken home and read to their families. A preliminary announcement of the project was sent to all Jeanes Teachers and to State Directors of Negro Education last week by Dr. Arthur Wright, president of the Southern Educational Foundation.

Initiation of the project began about February 18 with a campaign of education on the point rationing program concerning which a letter went to the 475 Jeanes Teachers from Dr. Wright. This was followed by general instructions to Jeanes Teachers. Also distributed were 15,000 copies of an outline on "How to Teach War Ration Book Two" for all teachers under Jeanes supervision, and 15,000 copies of a Guide for Volunteer Field Workers on point rationing.

The third in the series of pamphlets will be issued about March 5, and will deal with food production and conserva-

The Food We Eat

Rosa T. Winchester.

MILK

For Growth and Health Eat It—Drink It.

When building a house it is necessary to use good materials if you want that house to look well and to last well. The same is true when building a body. Strong well formed bones and teeth and well developed muscles are just as essential for a strong body as are good materials and good workmanship for a well built house. Then, too, like a house, our bodies undergo wear and tear and both must be kept in repair if we are to enjoy them to the fullest.

Milk is one of the best foods for building strong bodies and for keeping them in the best repair.

Try this one:

Soft Cooked Custard.

- 4 eggs
 - 4 cups milk
 - 1-3 cup sugar
 - 1-8 teaspoon salt
 - 1-2 teaspoon vanilla.
- Method:
1. Beat eggs slightly, add milk, sugar, salt and mix well.
 2. Place in top of double boiler, cook gently over boiling water.
 3. Stir constantly until the mixture coats the spoon.
 4. Remove from fire immediately and place in cold water.
 5. Add flavoring and mix well.

tion, nutrition and wartime saving. This will be distributed to the families of pupils in rural Southern Schools.

Better Health Means Better Citizens

Good health is the bulwark of the two fronts of today: the battle front and the home front. Conservation is the watchword of the hour, therefore it is important for us to carefully consider the foods that we eat, in order that the proper vitamins may be secured. Along with proper food, go rest, exercise and work. Each does its part to make healthy, happy wholesome lives. Do your part to make National Negro Health Week a success and keep it up all the year and in the years to come. The dividends will accumulate so rapidly that you will have only one regret that you did not begin the program before you did.
