Bennett Budget Set at \$883,350

A budget of \$883,350 for the academic year 1961-62 was approved by the executive committee of the Bennett College board of trustees as a highlight of its annual meeting at the college today.

This amount represents an increase of nearly \$100,000 over the present budget of \$785,475. President Willa B. Player pointed out that the major portion of this increase is due to the institution's efforts to continue improving the quality of its teaching program.

Dr. Player, in her interim report to the committee, pointed out that through April 30 the college this year has received miscellaneous gifts amounting to \$117,000. She also pointed to the steady increase in income received from the United Negro College Fund. Bennett this year will receive approximately \$43,000 from this source and can regularly include these funds in its operating budget.

A new post of treasurer of the college was created at the Friday meeting and Dr. J. A. Tarpley of Greensboro was named to fill it. Announcement was also made that the new dormitory now being constructed will be completed by July 1, two months ahead of schedule. A committee to select a name for it includes Dr. Tarpley, Mrs. H. C. Black, secretary of the board, of Johnson City, Tenn., and C. Everett Bacon, chairman of the investments committee, of New York City.

Dedication of the new facility, which will house 106 and greatly relieve present crowding in the residence halls, has been tentatively set for the weekend of October 20-22 when the full board will be holding its annual meeting here.

Dr. F. D. Patterson, of New York City, chairman of the board, reported receipt of a letter from the program director of the International Cooperation
