GREENSBORO, NORTH CAROLINA, FRIDAY, MARCH 29, 1963

PRICE 5 CENTS

A.&T. Nursing Students Receive Caps

Twenty-three students, one of the largest classes in the history of the A&T College School of Nursing, last Sunday received their caps at the annual Capping Exercises.

The group includes, from left to right: front row) Florence Jones, Petersburg, Va.; Barbara Bruce, Greensboro, N. C.; Helen M. Easley, Spartanburg, S. C.; Evelma Justice, Ellerbe, N. C.; Lady Elizabeth Eubanks, Nyack, N. Y.; Edith Reid, Ahsokie, N. C.; Lauretta Sexton, Rich Square, N. C., and Ola M. Sneed, Spartanburg, S. C.

Twenty-three students in the A&T College School of Nursing, all sophomores, who had met prior qualifications to begin their clinical work at local hospitals, last week received their caps.

The honors were presented to the largest class in recent years at the annual Capping Exercises held at Harrison Auditorium, Sunday afternoon, March 23.

Three of the girls, who earned high academic averages, were singled out for special awards.

Mrs. Martha Linton, Durham, N. C., who led the class in academic standings, received the Dr. C. C. Stewart Memorial Scholarship Award. The presentation was made by Dr. F. E. Davis on behalf of the Greensboro Medical Society.

The Moses H. Cone Woman's Auxiliary Award for professional promise went to Mollie C. Walker, Newport, N. C. It was presented by Mrs. J. T. Spence, president of the organization.

Lady Elizabeth Eubanks, Nyack, N. Y., was the winner of the Medical-Surgical Award, given by the Greensboro Academy of Medicine. The presentation was made by Dr. A. J. Tannenbaum, president.

The main address was delivered by Miss Jeanne Riddle, director of nursing, Cone Hospital, who assumed the post in 1962.

Speaking from the subject, "A Cap Now, Nursing Subsequent to the Present", she told the honorees that to feel adequate they must exert honest effort to improve every day.

Miss Riddle, in outlining the requirements of the good nurse, said one in the profession must have a philosophy of life, a ready smile, a soft voice, a sense of humor, wholesome and noble character, a sincerity which increases one's happiness and peace of mind and an implicit faith in God.

She warned the students that they have much to learn during the remaining years in college. With the clinical experience, she said, the students will learn to observe the patient, to understand the signs and symptoms and to evaluate and report them to follow directions, accurately, and to provide comfort to the patient, with prompt and efficient attention of his physical, emotional, spiritual and social needs.

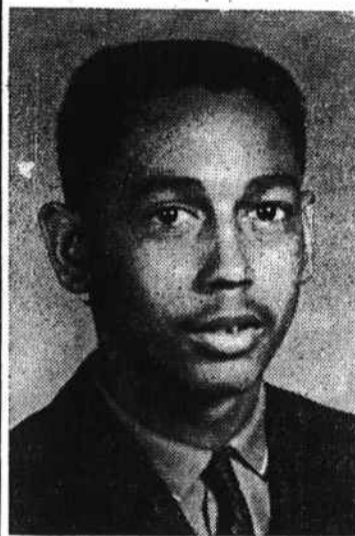

Miss Riddle was introduced by Mrs. Naomi S. Wynn, dean of the A&T School of Nursing.

Unsatisfied Hospital Committee

To Tell The Truth

On March 18, 1963, 738 citizens and residents of the southeastern section of this City presented "Some of" their reasons for opposing the rezoning of a 21½ acre site for the new L.R. M.H. to the City Council.

Ninety-eight per cent of the residents of the immediate area, and all avenues of approach within a square mile were represented. Friends and neighbors from other areas are also represented for they too have an interest in the location of the new L. R. M. H. These people, many of whom have contributed sums proportional to their incomes and other responsibilities, to the Hospital under the assumption that it was to be renovated. Areas represented were Dudley Heights, Clinton Hills, Willow Road, and the Ross Avenue area who also feel that this is an infringement on the residents of the immediate area to deprive them of a residential area similar to that found in other areas of this City. If this was the last available site in this area, then this letter and all of the others concerning this would not have been written.

The site selected based on a "suggestion" will.

1. Destroy the residential character of the neighborhood.
2. Increase the hazardous traffic conditions.
3. Add to the already congested traffic routes.
4. De - evaluate property in the immediate area.
5. Deprive the 250 children in the proposed hospital area of the already inadequate recreational facilities.

6. Deprive the citizens of this area of the intangible benefits to be derived from living in a decent residential area.

The residents of this area have worked long and hard to provide a home for their families. Our homes are dear to us for they represent a sacrifice and a good investment. The people making these decisions, to provide a facility have never considered the residents in their planning. However, these people have earned the right to decide what they do need in the area.

It has been stated that the new L. R. M. H. will serve 30,000 people. What about the 20,000 people outside of Greensboro who for obvious reasons cannot attend the Hospital closest to them? What about the People who have contributed to the Hospital? Did they agree that this was the best site? Why not let them vote on the proposed new course of action? Has it not been taken for granted that they might not agree with this action; just as you have neglected the people in the affected area?

Can the trustees honestly and sincerely say that this is the best site since no one bothered to investigate other possible sites?

Most of the people involved in this decision live in well-established neighborhoods that I am sure are free from the hazards and problems that confront the newer residents of this area.
