AIRMAIL RATE INCREASE GOES INTO EFFECT MAY 1

An increase in international surface and airmail rates will go into effect Monday, May 1, Acting Postmaster R. E. Sharpe announced today.

The new international rates, he said, will not apply to mailings for members of the Armed Forces overseas. Domestic postage rates are applicable to mail addressed through APO's and FPO's.

The rate increases for both surface and airmail—averaging 13%—were first proposed on Jan. 14 and publicly confirmed on March 1. The Department explained at that time that they were needed to help offset a deficit of about \$16 million in international mail operations.

Specific information on the new international rates can be obtained from the service window at the post office, Acting Postmaster Sharpe said.

This was the first general increase in international rates since July 1961. The increases are:

1. Airmail letters to Central America and Caribbean area from 13c a half ounce to 15c.
 2. Airmail to the rest of the Western Hemisphere remains 15c a half ounce, except for Canada and Mexico.
 3. Airmail to Europe and Mediterranean Africa from 15c a half ounce to 20c.
 4. Airmail letter rates to the rest of the World remain unchanged at 25c a half ounce.
 5. Aerogrammes and air post cards increased 2c each from 11c to 13c.
 6. Items sent by air, other than letters and parcels, such as small packages, books, periodicals and other printed matter increased 10c per piece to all countries except Canada.
 7. Most letters going by surface transportation to all nations (excluding Canada and Mexico) increased from 11c to 13c. Post cards raised from 7c to 8c.
 8. Most printed matter, including publications, increased one cent a piece. For 2nd class publications to Canada only, the one cent increase will be deferred for six months to become effective November 1, 1967. Also, the present bundling rate which permits postage to be computed on the bulk weight of packages of publications addressed to Canadian post offices will remain in effect until November 1, 1968, at which time it will be discontinued.
 9. Surface parcel post rates to all nations increased 20c a parcel, an average of 7%.
- "Postage rates for surface first-class letters and air letters and surface 3rd class type printed matter to Canada and Mexico correspond to U. S. domestic rates which are set by the Congress, and are not being changed at this time.
