FUNERAL SERVICES HELD FOR MRS. CARRIE S. CLAPP

Funeral services for Mrs. Carrie Simmons Clapp were conducted at New Light Baptist Church by Reverend Griffith on Sunday, January 7, 1968 at 3:00 p. m. Interment was at Maplewood cemetery. Hargett Funeral Service was in charge of arrangements.

Mrs. Carrie Simmons Clapp, wife of the late Charlie Clapp, departed this life Wednesday afternoon at the L. Richardson Hospital after several years of illness. She was the daughter of the late Peter and Millie Simmons, born in Guilford County.

Mrs. Clapp was one of the real pioneers of the New Light Baptist Church, being one of the members that saw the first sanctuary built. She spent many years in active service in the church.

She leaves to mourn their loss two daughters, Mrs. Annie Sumner and Mrs. Mary Tate,

Mrs. Carrie Simmons Clapp

both of Greensboro; fifteen grandchildren; thirty-four great-grandchildren; three nieces, and a host of other relatives and friends.

Scout Leaders To Preview Golden Anniversary Plans

Cub, Scout, Explorer leaders and Commissioners of the General Greene Council will gather at Town Hall of the War Memorial Coliseum to preview Golden Anniversary Plans and Activities for 1968.

The meeting which begins at 2:30 p. m. will provide leaders with information on the Golden Anniversary Banquet scheduled for February 8th. Information to be given is, a visit by Mrs. Ernest Thompson Seton, noted author and wife of one of Scoutings founders, as a highlight of the Anniversary year celebration and plans for Scout Week, February 7-13.

A main purpose of the meeting will be to provide detailed information on how units can participate in the council's first Scout-O-Rama, scheduled for April 27th. Leaders will commit their units to participate in one of the following: Cubland, Indianland, Explorerland, Camperland, Pioneerland, Chiefland, Olympiand, Conservationland, Boothland and Skill-O-Rama.

Leader clinics and workshops will be available as follows: New Webelos leader plans and action, The outdoor program of Scouting, Financing unit programs, the Religious awards program, The Explorer Program for High School Age boys, The Patrol Method, Advancement Programs, Attracting, Recruiting and Holding Boys.

Beginning at 6:30 p. m. leaders will be invited to participate (Continued on Page 4)

A&T STATE UNIVERSITY RECEIVES GRANTS TOTALING MORE THAN \$185,000

A&T State University has received three federal grants totaling more than \$180,000 and a \$5,000 research grant from the North Carolina Board of Science and Technology.

President Lewis C. Dowdy said that the federal grants will support institutes for teachers to be held at the University next summer.

The research grant went to Dr. Artis P. Graves, chairman of A&T's department of biology for an investigation of the mosquito minnow and its possible effects on commercial fishing in the State.

Two of the federal grants are from the National Science Foundation, and provide \$71,320 for a biology institute for secondary teachers and \$60,730 for a chemistry institute for high school teachers.

Dr. Graves will also head the biology institute and Dr. James Pendergrast will direct the chemistry institute.

The University's other award was \$48,300 from the U. S. Office of Education for a seven-week history institute for 36 fifth grade teachers. This program will be directed by Dr. Frank White, professor of history at A&T.

Dr. Dowdy said that participants in the institutes will be eligible to receive \$75 per week

and an additional \$15 per week for each dependent. Applications for the programs may be obtained from the directors.

In his study, to be conducted on a pond at A&T's farm, Dr. Graves said he will study the breeding habits of the mosquito minnow, a source of food for larger fish, and also a foe of mosquitoes.

"If we can learn how to breed these minnows faster," said Graves, "it might aid fish production and help in solving the mosquito problem."

CHICAGO LITTLE SYMPHONY TO APPEAR IN CONCERT AT A&T

The Chicago Little Symphony, conducted by Thor Johnson, will appear in concert at A&T State University, Sunday, January 14 at 6 p. m.

The program, scheduled for Harrison Auditorium, is a feature of the University's annual Lyceum Series.

Now making their seventh tour of the United States, Johnson and the Chicago Little Symphony have presented more than 175 concerts. The group has been hailed as one of the nation's finest chamber orchestras.

Organized by Johnson in 1959, the orchestra consists of 20 musicians, carefully selected from the finest symphony orchestras and chamber music ensembles.

Two outstanding members of the orchestra include violinist Charles Treger and double bass virtuoso Gary Karr, both former members of the Chicago Little Symphony.

Johnson holds the distinction of being the first American-born, American-trained conductor appointed by a major orchestra in this country.

In recognition of his splendid work in contemporary American music, Johnson was recently presented the Laurel Leaf award by the American Composer's Alliance.

As guest conductor, Johnson has appeared with the New York Philharmonic and with the orchestras of Boston, Philadelphia, Chicago, Los Angeles, Rochester, N. Y., and New Orleans.

Besides engagements in Europe and Asia, he has conducted the Japan Philharmonic of Tokyo, the Taiwan Provincial Symphony of Taipei and the National Symphony of Iceland.

During the Eisenhower administration, Johnson was a member of the government's Advisory Committee on the Fine Arts.

ABNORMAL CHROMOSOMES

Abnormal chromosomes in parents can cause the birth defects known as "mongolism." Child shown, under examination in March of Dimes Birth Defects Center at Louisville, Ky., General Hospital, is severely retarded. These tragedies can be prevented today through genetic counseling. When you give to the March of Dimes you support birth defects prevention.
