Greensboro Native Heads Bronx Anti-Poverty Agency

by Pete Holden

Bronx, N. Y., Versatile B. Frank Wright, who formerly served in the capacity of Deputy Director of the South Bronx Community Progress Center, was elevated by the Community Corporation through its Board of Directors to the position of Executive Director. This action took place during a closed session of the Board, on May 24, 1968, however, the Board withheld the official release until now.

The hard working Mr. Wright, who was acting Director until the above mentioned Board's decision, succeeds Mrs. Gladys Harrington, who resigned her South Bronx Community Corporation post in mid April to join the staff of H.R.A.

The new Center Director, who joined the East 149th Street (near 3rd Ave.) staff in July 1966, formerly headed this anti-poverty agency's Neighborhood Youth Corps and Manpower Development Department.

During Mr. Wright's directorship of the latter department, the South Bronx CPC hit an all time high in youth job training and placement. In August 1967, the Neighborhood Youth Corps and Manpower Development employed upwards of 1400 boys and girls, ranging in age from 18 to 21, in addition

approximately 400 were referred to and/or placed in private employment.

This was something of a record in South Bronx Youth employment training and development, Mr. Wright simultaneously paced several hundred additional youths in "On the Job Training" programs in Bronx Hospitals, schools, parks, banks, community coordinating agencies, playgrounds, parochial school vacation playgrounds and the U. S. Rubber Company, among other private enterprises and public agencies.

Summer Youth Payroll

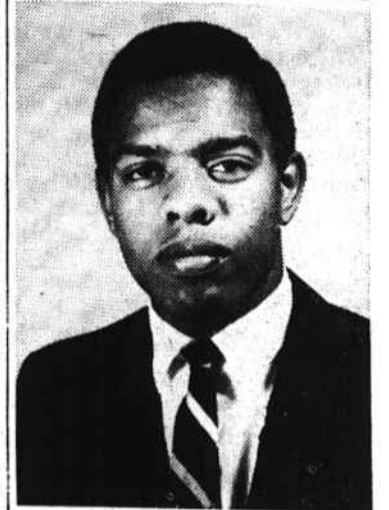

Mr. Wright, also designed proposals for and administered last summer New York City program with a \$42,000 weekly payroll, one of the nation's largest for a local anti-poverty agency.

A Native of North Carolina

Mr. Wright is a native of Greensboro, North Carolina, where he attended public schools and worked his way through N. C. Agricultural and Technical State University. The many talented South Bronx C. P. C. Director went on to the City University of New York and Toledo (Ohio) University.

A former Teacher and Community Relations Director for the Board of Education, Mr. Wright is an above the average

golf and tennis player, and when he is not spending his leisure time in one of the above sports, he is reading extensively and writing, professional periodicals for publication. He is married to the former Laura Hartman of Brooklyn, a New York City public school teacher.

A&T STUDENT SCORES A 'FIRST'

A&T State University student Lawrence Calvin McSwain Saturday became the first black student to head the North Carolina Student Legislature. He is a native of Kings Mountain, N. C.

"Our Crooks Are Flying; Our Boys Are Dying"

By RALPH JOHNS

Mr. President; While you are flying over the European Area seeking peace and prosperity; Which I agree is very commendable and admirable and shows that you are an honorable man; But up in Washington, we have a bunch of Senators who only recently voted to give themselves an enormous raise in salary, while our country is bankrupt, while our boys in Vietnam are dying for peanuts. This I don't understand! But I'm not mad; But I am mad about a matter that is the most sickening thing that could happen in our country, especially at a time when the mood of our Militants are dangerous; When students and minority groups are groping for a sign from the leaders of our government that they have got heart and mind for understanding the complex problems that must be resolved at once, before America goes up in flames, before blood and lives are lost all over this land of ours.

Our values are mixed up in America when we fail to see what our youngsters are trying to tell us. They are sick of this floundering, failing, phony leadership that calls itself our leaders. Here is a gross example: Senator John Stennis from Mississippi for years that states Senator; for years he has been head of the Committee on HUAC, which was supposed to be the witch hunters, which was supposed to ferret out Com-

munist activities and an Americanism in our country; This man who owns thousands of acres of land in Mississippi and has shared it out to sharecroppers at starvation wages; This man who has been paid by our government many years, many hundreds of thousands of dollars to plow under his crops through government subsidies. This man who for years and years has condoned discrimination, segregation, injustices, White Sheeted K.K.K. to ride and terrorize black Americans in his home state; Here is a man who for many years has pointed a finger, Here is a Senator under Congressional Immunity Character Assassinated many a Black and White American; This same Senator Stennis was honored the other day in Mississippi.

That's all right, that's his business and the business of those who honored him; But I say it is my business and the business of every tax-paying American citizen to yell to the high heavens . . . U. S. Government jet planes were flown to Mississippi — riding these jet planes were many Senators and big wheels at taxpayers expense who went on a surprise party honoring Senator Stennis!

When is our country going to learn, when is there going to be honesty in government, when are our Senators and Congressmen going to learn to stop this petty pilfering and I call it stealing from the taxpayers and

America. I say it's time someone woke up! I think a lot of young boys in Vietnam would like a ride home at government's expense for a day or so to see their loved ones. The money spent on this excursion is a sin. For this money spent honoring this old hypocrit, this man who pretends to be a great Christian and Great American is blood money.

The blood of many children and old folks who died of starvation in Mississippi; The blood of boys dying in Vietnam; This man who has castigated, who has threatened, who has yelled Communist with impunity through Senatorial immunity with his cohorts who took this hundred thousand dollar taxpayers ride should not be allowed to reimburse the government, they should not be allowed to whitewash or sweep under the rug this dishonest act; They should be fired, thrown in jail, like many of the ones who were beaten up, and thrown in jail in his home state of Mississippi for demanding the right to vote, insisting on the right to be treated as Americans; You Senator John Stennis, who have tried so many Americans by insinuations and innuendoes through your House Un-American Committee, (HUAC) You are now on trial: Those Senators who took that free ride, they're on trial. Let me hear you holler loud and clear . . . Un-American — Un-American — Un-American.
