The cheapest dryer and next to the cheapest dryer.

The sun's the cheapest, of course. It'll dry your clothes for free.

But it's not dependable. And it's not much help in winter, when it's near freezing or below and you've got a whole week's wash to get out on the line.

No, the sun's not the best year-round way to dry your clothes. The best way is gas.

Gas will fluff your clothes up just like the outside does. Only you don't have to go out of doors.

And it's cheap, too. You can dry up to five loads with gas for the price of just one load with the other kind of indoor dryer.

Drop by your Piedmont Natural Gas Showroom and see our new Whirlpool gas dryer for yourself.

Go ahead. We'll give you easy terms. And delivery and installation is free.

It's the best deal you're going to find anywhere. Under the sun.

BONUS OFFER

With every Whirlpool gas dryer sold (for a limited time), we'll throw in a 25-pound box of super-concentrated low-sudsing and lemon-fresh Whirlpool detergent.
