DEATHS AND FUNERALS

Greensboro Man Killed In Single Car Accident

Forrest Dale (Buddy) Darnell, II of 1819 Joyce St., was apparently killed instantly when his car slammed into a concrete support of the Merrit Drive underpass on Interstate 40, Sunday morning, Sept. 13. A police report said his car was traveling east on I-40 at a high rate of speed. He was alone in the car at the time of the accident.

Mr. Darnell, son of Mrs. Rhinnie Darnell and the late Forrest

FORREST D. DARNELL, II

D. Darnell, Sr., was born in Columbus, Ohio on Sept. 17, 1937 and was dead on arrival at

Moses Cone Hospital on the morning of Sept. 13, 1970, four days before his 32nd birthday.

Before coming to Greensboro, he was a member of Mt. Mariah Baptist Church in Richmond, Indiana. He served on the Deacon Board there and in Greensboro he became an active member of St. James Baptist Church.

He was a Marine veteran of the Korean War and was employed as a machine operator for Pittsburgh Plate Glass Co.

Funeral services were conducted on Thursday, Sept. 17 at 2:00 p.m. at Smith's Funeral Home Chapel, with Rev. Prince E. Graves, Pastor of St. James Baptist Church, officiating.

Survivors are his wife, Mrs. Barbara C. Donnell; his mother, Mrs. Rhinnie Darnell of Columbus, Ohio; three daughters, Lynette, Sherry and Amanthia; three sons, Garry, Richard and Forrest III; sisters, Mrs. Dorothy Gilmore and Mrs. Nevada Shoffner both of Greensboro, N. C., Mrs. Harriet Caldwell, Columbus, Ohio, Mrs. Lorna Newton and Mrs. Patricia Martin both of Brooklyn, N. Y., Mrs. Almeta Cox, Cleveland, Ohio and Mrs. Delores Smith of Japan; brothers, Dr. George McClung, Cincinnati, Ohio, Mr. James McIver, Greensboro, N. C. and Mr. Samuel McIver of Brooklyn, N. Y.

GREENSBORO MOURNS LOSS OF PROMINENT SCHOOL TEACHER

Funeral services were conducted for Mrs. Eloise Logan Penn on Monday, Sept. 14, 1970 at 4:00 P.M. in the James B. Dudley Senior High School Auditorium, 1200 Lincoln St., Greensboro, N. C., with the Rev. Howard A. Chubbs, Officiating.

Mrs. Penn, daughter of the late Mr. and Mrs. Uriah H. Logan, was a native of Fort Worth, Texas. She departed this life on Friday, Sept. 11, at her home, 517 Martin St.

A graduate of Fisk University, with a major in music, she later earned her Master's Degree in Music Education from the Columbia University School of Music. In 1922 she joined the Greensboro City Schools as a music teacher in Washington High School and as supervisor of music in several of the elementary schools.

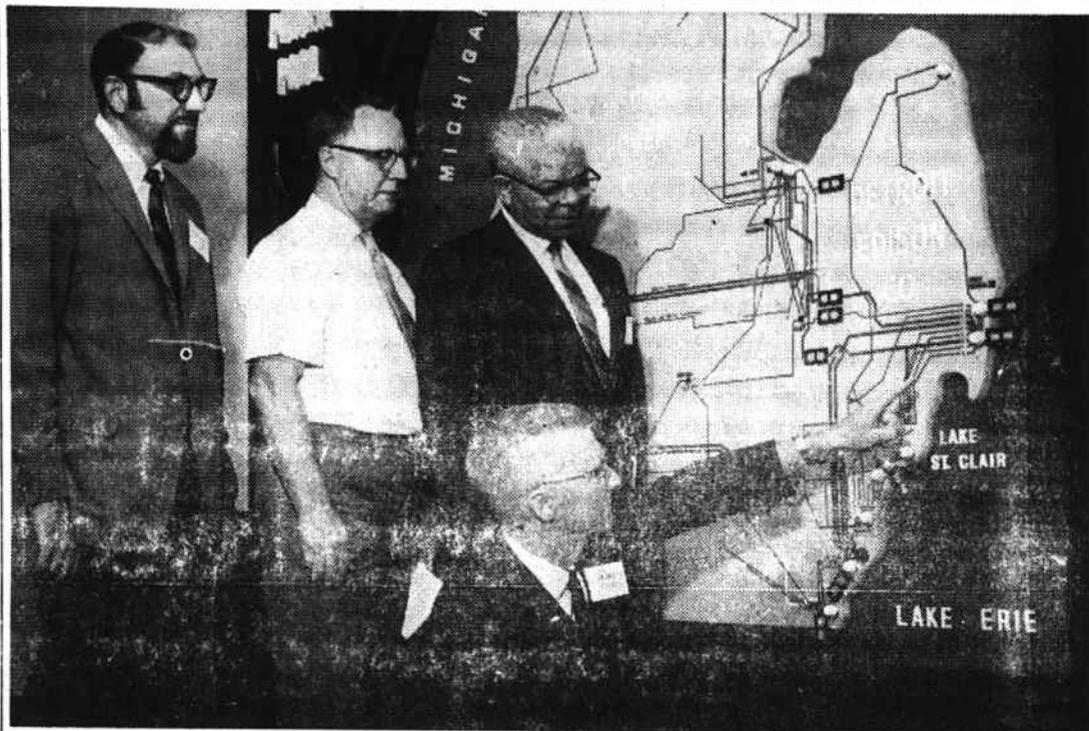

Other school systems in the state also used her as consultant to their music education programs. For many years she was in charge of the music program at Dudley High School, and

MRS. ELOISE LOGAN PENN

when Dudley's band director was inducted as director of a Navy band in World War II, Mrs. Penn was the school's band director during the war years. When the war ended, Mrs. Penn was named full-time supervisor of music for the city schools,

Educators Visit Industry

Armand Richardson (standing, right), chairman of the department of electrical engineering at North Carolina A&T State University, was one of a select group of engineering educators from 27 colleges and universities who visited the Michigan Power Pool Control Center last week as part of an Education-Industry Conference of Electric Power Engineering sponsored by The Detroit Edison Company.

Richardson, whose wife, Ruth, accompanied him on the trip to Detroit, makes his home in Greensboro.

The MEPPCC, incorporating one of the nation's most modern and sophisticated computer operations in power systems, continuously monitors and directs 67 generating units in 13 power

plants of Detroit Edison and Consumers Power Company, the two principal members of the Michigan Electric Power Pool.

Richardson is shown here with (left to right) Jerome Meisel from Wayne State University in Detroit; George R. Sell, University of Wisconsin; and Neal A. Smith (kneeling) of Ohio State University. The instructors are examining a narrated display, utilizing sequential back-lighting to depict movement of electricity and changing power sources, of the 345,000-volt lines and major generating plants of the Michigan power companies. The automated schematic reflects how the computers select the proper power sources and transmission

circuits to achieve the maximum in economy, efficiency, and reliability in meeting customer needs at any point within the electric system.

The four-day conference which ended on Thursday, Sept. 3, the 20th annual meeting of its kind, was held in Detroit and offered members of the college teaching profession a special opportunity to examine and evaluate practices in the management of a large electric power business.

Aside from the visit to MEPPCC, the conference included tours of other Edison facilities and meetings on research and development activities of the investor-owned electric utility company.

Bennett College Chaplain To Preach

The first Sunday Formal Vesper Service at Bennett College scheduled for Sunday, Sept. 20, at 4:00 p.m. will feature participation by members of the College Choir, directed by Mr. Frank Boulware, the new College Organist, Miss Susan Dillard, and a special sermon by the Rev. Peter E. A. Addo, whose topic will be "Prodigals Who Don't Return." Special readings will be given by Miss Linda Silver, a senior Chemistry student. The ushers will be members of the Senior Marshall Board, President, Miss Carolyn Prince, also a senior student. A special reception has been planned in the Student Union by the students for Christian Social Concerns led by Miss Mabel Guillard, a junior student.

Chaplain Addo is a versatile

\$1.4 Million Communications Center Unveiled At A&T State University

When the new semester gets underway at A&T State University September 21, the principal new addition to be unveiled on the campus will be the ultra modern Crosby Communications Center, completed this summer at a cost of more than \$1.4 million.

According to Dr. Lewis C. Dowdy, A&T President, the new facility represents a major step in strengthening the University's offerings in the humanities.

"This new building should facilitate our developing more balance between education, science, social science and the humanities," said Dowdy.

An important feature of the building is the fully equipped Little Theatre, with a New York stage and an auditorium to accommodate 371 persons.

The auditorium is connected to the section housing the classrooms and laboratories by an enclosed sky-lit passageway, which also doubles as a student lounge.

The facility's 18 classrooms are expected to be used primarily for instruction in English, speech, drama, reading and foreign languages.

Besides the regular classrooms, (the center also has three seminar rooms and 12 laboratories for the teaching of foreign languages, reading and speech.

Crosby Center is equipped with facilities for the production of closed circuit television programs and lectures. It will also provide space for WANT, the campus radio station and an educational media laboratory.
