## Hornsby Howell Plans Lineup Shifts After Aggies Stopped by Fla. A&M

Tallahassee, Fla. — You got a feeling that A&T coach Hornsby Howell meant every word when he said, "there are going to be a lot of changes made."

The humiliation to Howell was evident. He had just pranced the sidelines for 60 harrowing minutes as his Aggies were smothered 33-0 by arch rival Florida A&M. It was the worst beating to an A&T team since Howell took over three seasons ago.

"We had absolutely no defensive secondary," said Howell, "but we are changing the whole defensive setup, including some personnel. We could not have stopped their glee club the way we played tonight."

FAMU quarterback Steve Scruggs provided most of the Aggies' woes. He riddled the inept defensive secondary with short, medium and long bombs, twice for touchdowns.

"We just didn't do well at all," volunteered Howell, still smoldering in the humid dressing room. "Some of our personnel just quit on us, but it won't happen again."

Kind words were hard to come by, but the A&T coach did give his approval to the performance of senior running back

Coach Hornsby Howell

Harold Riley and freshmen backs James Lilly and Robert Holton.

Lilly was extremely effective running punts and kickoffs, shaking loose once for 49 yards. "We are going to move Lilly to the defensive secondary starting Monday," said Howell.

In spite of the score, the Rattlers were unable to run on A&T, getting only 31 yards to the Aggies' 98 on the ground. "Our front line defense did a good job, except for a few people," said Howell. "I also thought Blacknall, our linebacker and tackle Billy Wideman played well. But other than that, there are going to be some changes made."

## A&T Graduates Teach Undergraduates How To Take Interviews To Get Better Jobs

College students have not learned to master job interviews and as a result, many of them are denied good paying positions, according to W. I. Morris, director of placement services at A&T State University.

In an effort to reverse this trend, three A&T successful graduates will sponsor a job interview clinic on campus Thursday and Friday for the University's undergraduates.

The project is the idea of James Brannon, a commercial underwriter with Liberty Mutual Insurance Company in Boston. Brannon, who has spent a number of years as a college recruiter for his firm, will be assisted by James Spurlock, an employee relations specialist with Appalachian Power Company in Roanoke, Va., and Mrs. Carol Pinkett of Humble Oil Corporation of Houston.

Also working with the team will be Philip Bell of IBM's Research Triangle facility in Durham and Miss Pat Joyner of General Electric Corporation in Philadelphia, and Mrs. Dorothy Jones, assistant placement director at A&T.

"The main point we will be trying to get across to the student is that he must sell himself to the interviewer," Brannon pointed out. "Detailed answers are very important. The

student must tell of his experiences and background. Simply answering questions with a yes or no is not sufficient.

"An interviewer becomes much more interested in a person who can talk about himself and his experiences because that person can adapt to a position much more quickly."

One of the most important parts of the clinic according to Brannon are mock interviews with students.

"What we are going to do is tape these interviews and then play them back, showing the student where his interview weaknesses are."

"I found that often students had difficulty in selling themselves and that in many instances their abilities were much greater than what was indicated in the interview. This clinic can be a great help to those students."

### "Laymen's Day"

At 11:00 a.m., Sunday, Oct. 25, Mr. Joseph McKinney, the president of the Laymen's organization of the Second Episcopal District, will speak.

### "For Pete's Sake"

A Billy Graham movie, "For Pete's Sake!" will be shown at the Terrace Theater in Friendly Shopping Center October 22-28. Plan now to see this movie.

## Veterans' Corner

Editor's Note: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.

Q — I plan to enter college under the G. I. Bill and will be taking 16 semester hours. How much will VA pay me since I have no dependents?

A — If you have no dependents and carry the full-time load you anticipate, your monthly payments will be \$175 at the present rate.

Q — Upon my discharge from the service, I received a lump sum disability severance payment. Will I have to pay this back to the government if I am awarded VA compensation for the same disability?

A — The law requires that VA monthly compensation payments be withheld until the amount received is equal to the amount of severance pay you received because of the disability.

Q — May I purchase a home with a G. I. loan over the VA appraisal?

A — Yes, provided you pay in cash the difference between the reasonable value determined by the VA and the price of the house.

Q — I entered military service last year before completing high school. When I get out of service will the VA pay me any educational allowance while I complete high school? If so, how much?

A — Yes, if you have more than 180 days active service. If you are a single veteran, you will receive \$81 a month for adult evening high school or \$175 a month for full-time schooling; more if you have dependents. The law entitles you to this allowance without deducting anything from your entitlement to further education and training.

## Good Road Manners

Racing to capture all the pleasure that the last long holiday weekend affords can be a dangerous time on the nation's highways.

Many drivers look forward to this weekend as their last fling of carefree relaxation and enjoyment before settling down to their many winter activities, such as, getting the kids back to school, the youngsters off to college, father back to work and many other happenings involving families and individuals.

Highways offer faster and safer traveling to drivers, however, to make driving more enjoyable and less hazardous motorist must remember his "good (Continued on Page 4)

## A&T Receives Grant of \$20,000.00 To Find, Develop Future Leaders

A&T State University Friday received a grant of \$20,000 from the North Carolina Leadership Institute, Inc. for a program designed to identify and develop future leaders for business, government and industry.

In announcing the grant, Dr. Lewis C. Dowdy, president of the University, said A&T will be the first black institution in the state selected to participate in the North Carolina Fellows Program, which has operated since 1967 at UNC Chapel Hill, Davidson College, North Carolina State University and East Carolina University.

Dowdy said that the A&T program will be directed by William C. Parker, Jr., associate dean of student affairs. "We are pleased to be a part of this unique program which will serve to eliminate some of the stumbling blocks which potential leaders sometimes face," said Dowdy.

The initial leadership program was developed in connection with the Smith Richardson Foundation.

Parker said the initial project at A&T will involve 15 students during the 1970-71 school year. A number of other students will be added next year.

"We will try to tailor this

program to the individual needs of the participants," said Parker, "but the emphasis will be placed on informal meetings, on-campus seminars and personal contacts with prominent leaders in different fields."

During the year, the participants will receive career placement and academic and social counseling, and once during the term a special off-campus retreat will be conducted.

At the end of each year, participants in the program will have the opportunity to take part in an internship program, either in an educational institution or in a business or governmental facility. The students will be encouraged to try a different field each summer.

In addition to Parker, personnel employed by the central office of the North Carolina Leadership Institute will serve as consultants for the students.

Parker said students will not receive direct scholarships nor receive formal university credit for being in the project.

"This high level program is designed to supplement and contribute effectively and positively to the undergraduate experiences of each participant," said Parker.

## Moon Rocks Displayed At A and T State

Samples of rocks taken from the moon and some of the equipment used in the Apollo moon landing missions were a part of a display and lecture to be presented Thursday at A&T State University.

The illustrated lecture entitled "Cleaner than Clean," was presented by Dr. J. M. Shreyer, a professor of chemistry for the Union Carbide Corporation, at 8 p.m. in the auditorium of Merrick Hall.

Schreyer is currently on the staff at the Oak Ridge National Laboratory, operated for the U. S. Atomic Energy Commission.

An alumnus of Brevard College and the University of North Carolina at Chapel Hill, Schreyer played a key role in the preparation of equipment used in the moon landings. In his talk at A&T, he will describe an ultra clean room facility such as the one at Oak Ridge, which was used by personnel of his department to sterilize the "moonboxes" and auxiliary sampling equipment.

He will also discuss proposals for the application of such clean room systems for use in homes, offices, institutions and industries to reduce respiratory problems and communicable diseases.

Schreyer who formerly taught chemistry at Asheboro High

School, was employed by the War Department from 1941 to 1945 in explosive fabrication research. He holds the Ph.D. degree in chemistry from Oregon State University.

The author of some 50 scientific publications, he is listed in the American Men of Science, Leaders of American Science, and is a member of the American Chemical Society. The lecture at A&T is open to the public.

## Eighteen Businesses Are Sharing Costs of Meals In United Campaign

Eighteen business firms are underwriting the costs of all meals for meetings held in conjunction with the 1971 United Fund Campaign for the Greater Greensboro Area.

"None of the money collected in the campaign goes to pay for these meals," according to General Chairman W. L. Carter Jr. "These business firms provide this vital support of the campaign in addition to giving their regular corporate contributions
