(Continued on Page 8)

Now you don't have to choose between calories and taste

On the one hand, there's regular milk. Which is slightly fattening but which tastes good.

On the other hand, there's low-calorie milk. Which is thinning but which doesn't taste so good.

Introducing the third hand: United Dairies' Hi-Vi.

Hi-Vi is 98% fat-free, not 99% fat-free like some of the other low-calorie milks.

It's the first low-calorie milk that takes away calories without taking away taste.

United Hi-Vi.

Why should dieters have to suffer?

United Dairies.

In United there is strength.
