Editor's Note: Veterans and their dependents are asking thousands of questions concerning the benefits their Government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.

Q — I am a Vietnam serviceman hospitalized pending discharge. I recently applied for vocational rehabilitation, and understand I will be rated for service-connected disabilities by the VA before I am discharged. Will this rating set the one year

period that I will have to apply for service disabled veterans' insurance?

A — No. The one year allowed for applying for service-disabled veterans insurance begins with the date of the first notice of disability rating sent to you by VA after discharge.

Q — Are there any income and credit requirements a veteran must meet in obtaining a VA loan for a mobile home?

A — No, there is no set income requirement. The terms of repayment of the loan, however, must bear a proper relationship to the veteran's or serviceman's present and anticipated income and expenses, and he must be a satisfactory credit risk.

Q — May a veteran who is receiving compensation from the VA arrange to pay a policy loan on his National Service Life Insurance out of this monthly benefit?

A — Yes. It is a most convenient and relatively painless way to accomplish this repayment. VA Form 29-888, Insurance Deduction Authorization, available from any VA office, should be completed and sent to the office which has your insurance records.

Q — Does the VA provide any educational program for veterans disabled in military service?

A — Yes. There is a rehabilitation program for veterans who suffered serious service-connected disabilities. For information on this program, contact the nearest VA office, or your local service organization representative.

Q — I am a World War II veteran and the VA has advised me that I can carry only \$10,000 worth of Government Life Insurance. Is this true?

A — Yes. The maximum of \$10,000 in VA insurance coverage is established by law.

Q — I was hospitalized in a VA facility for more than 21 days for an injury I received on my job. Would I be entitled to a temporary VA 100 per cent rating for this period of hospitalization?

A — No. Only veterans hospitalized for more than 21 consecutive days for treatment of service-connected disabilities may qualify for this benefit.
